Fundamentals of Investing Lawrence J. Gitman, Michael D. Joehnk, Scott B. Smart, 2010-01-15 *Fundamentals of Investing* helps students make informed investment decisions in their personal and professional lives by providing a solid foundation of core concepts and tools Gitman Joehnk Smart use practical hands on applications to introduce the topics and techniques used by both personal investors and money managers The authors integrate a consistent framework based on learning goals to keep students focused on what is most important in each chapter Students leave the course with the necessary information for developing implementing and monitoring a successful investment program The eleventh edition addresses the current financial crisis and the impact it has made on the markets Forthcoming Books Rose Arny, 2002 *Basic Managerial Finance* Lawrence J. Gitman, 1989 **The Free Cash Flow Approach** Ralph Johann, 2008-09 Seminar paper from the year 2005 in the subject Business economics General grade 1 3 California State University Fullerton course Theory of Corporate Finance 21 entries in the bibliography language English abstract This paper will deal with the procedure and implementations of firm stock valuation using FCF approach and WACC the weighted average cost of capital On the road the different approaches and methods of firm valuation the various inputs of WACC and the final procedure finding the fair market value of the firm using Pro Forma Financial Statements will be discussed In this valuation method the two main parts contributing to the final value of the firm are Free Cash Flows FCF and the weighted average cost of capital It is then used the time value of money concept along with some educated guesses about the long term sales growth rate and the long term WACC to apply common capital budgeting rules of project evaluation Besides that the paper will shortly discuss the influence of capital structure on a firm s value It will come out that there is a difference in value whether the company is leveraged and uses debt or not When it comes to the different inputs of the WACC a main focus will be on the required rate of return for

shareholders Finding the right beta and an appropriate estimate for the market risk premium are the main issues of that part Therefore the CAPM model and its specific determinants will be analyzed Thereafter the nature of pro forma financial statements and the different parts of them will be defined It will be described how the free cash flows are determined and how that leads to the actual valuation procedure Finally the paper will focus on the terminal value as probably the most important and affecting part of the calculated firm value and its nature as a perpetuity in an investing perspective The conclusion will finally deal with a critical assessment of the firm valuation process with the FCF method
