A Study of Hamlet Frank Albert Marshall,1875 **Shakespeare and the Power of the Face** James A. Knapp,2016-03-03 Throughout his plays Shakespeare placed an extraordinary emphasis on the power of the face to reveal or conceal moral character and emotion repeatedly inviting the audience to attend carefully to facial features and expressions The essays collected here disclose that an attention to the power of the face in Shakespeare s England helps explain moments when Shakespeare s language of the self becomes intertwined with his language of the face As the range of these essays demonstrates an attention to Shakespeare s treatment of faces has implications for our understanding of the historical and cultural context in which he wrote as well as the significance of the face for the ongoing interpretation and production of the plays Engaging with a variety of critical strands that have emerged from the so called turn to the body the contributors to this volume argue that Shakespeare s invitation to look to the face for clues to inner character is not an invitation to seek a static text beneath an external image but rather to experience the power of the face to initiate reflection judgment and action The evidence of the plays suggests that Shakespeare understood that this experience was extremely complex and mysterious By turning attention to the face the collection offers important new analyses of a key feature of Shakespeare s dramatic attention to the part of the body that garnered the most commentary in early modern England By bringing together critics interested in material culture studies with those focused on philosophies of self and other and historians and theorists of performance Shakespeare and the Power of the Face constitutes a significant contribution to our growing understanding of attitudes towards embodiment in Shakespeare s England **Lacan to the Letter** Bruce Fink,2004 To read Lacan closely is to follow him to the letter to take him literally making the wager that he comes right out and says what he means in many cases though much of his argument must be reconstructed through a line by line examination And this is precisely what Bruce Fink does in this

ambitious book a fine analysis of Lacan's work on language and psychoanalytic treatment conducted on the basis of a very close reading of texts in his *ICrits A Selection* As a translator and renowned proponent of Lacan's works Fink is an especially adept and congenial guide through the complexities of Lacanian literature and concepts He devotes considerable space to notions that have been particularly prone to misunderstanding notions such as the sliding of the signified under the signifier or that have gone seemingly unnoticed such as the ego is the metonymy of desire Fink also pays special attention to psychoanalytic concepts like affect that Lacan is sometimes thought to neglect and to controversial concepts like the phallus From a parsing of Lacan's claim that commenting on a text is like doing an analysis to sustained readings of *The Instance of the Letter in the Unconscious* *The Direction of the Treatment and Subversion of the Subject* with particular attention given to the workings of the Graph of Desire Fink's book is a work of unmatched subtlety depth and detail providing a valuable new perspective on one of the twentieth century's most important thinkers Bruce Fink is a practicing Lacanian psychoanalyst analytic supervisor and professor of psychology at Duquesne University in Pittsburgh He is the author of *A Clinical Introduction to Lacanian Psychoanalysis* 1997 and *The Lacanian Subject* 1995 He has coedited three volumes on Lacan's seminars and is the translator of Lacan's *Seminar XX On Feminine Sexuality the Limits of Love and Knowledge* 1998 *ICrits A Selection* 2002 and *ICrits The Complete Text* forthcoming

Reading Human Nature Joseph Carroll, 2011-03-01 As the founder and leading practitioner of literary Darwinism Joseph Carroll remains at the forefront of a major movement in literary studies Signaling key new developments in this approach *Reading Human Nature* contains trenchant theoretical essays innovative empirical research sweeping surveys of intellectual history and sophisticated interpretations of specific literary works including *The Picture of Dorian Gray* *Wuthering Heights* *The Mayor of Casterbridge* and *Hamlet* Evolutionists in the social sciences have succeeded in delineating basic motives but have given far too little attention to the imagination Carroll makes a compelling case that literary Darwinism is not just another school or movement in literary theory It is the moving force in a fundamental paradigm change in the humanities a revolution Psychologists and anthropologists have provided massive evidence that human motives and emotions are rooted in human biology Since motives and emotions enter into all the products of a human imagination humanists now urgently need to assimilate a modern scientific understanding of human nature Integrating evolutionary social science with literary humanism Carroll offers a more complete and adequate understanding of human nature
