Global Taiwan Suzanne Berger, Richard K. Lester, 2015-02-12 Global Taiwan examines the impact of globalization on the industry and economy of Taiwan since the spectacular growth of the 1990s Drawing on hundreds of interviews with firms in Taiwan China the United States Japan Europe and other areas the book analyzes the strengths and weaknesses of Taiwanese firms at a time when they face new competition from powerful global leaders and new producers in China The contributors cover topics of enormous importance for Taiwan as well as the rest of the world including transformations in the international economy technological advances that enabled modularization and fragmentation of the production system contract manufacturers regionalization and links with Chinese industry The book addresses such questions as Can Taiwanese companies be maintained and expanded with the same corporate strategies and public policies as in the past Can these strategies still work for other countries If changes are required what resources can be mobilized in the public and private sectors As massive relocation of manufacturing and services moves plants and jobs to low wage countries like China and India what will remain at home in societies like Taiwan

Rent Seeking and Development Christine Ngoc Ngo, 2020-03-25 Rent seeking continues to be a topic of much discussion and debate within the political economy This new study challenges previous assumptions and sets out a new analysis of the dynamics of rent and rent seeking in development using Vietnam as a case study This book provides an alternative approach to the study of economic development and illuminates new perspectives in a contemporary context It argues that not only has there been an incomplete understanding of Vietnam s industrial development over the last three decades but that neoclassical economics do not adequately address many of the issues endangering Vietnam s development A significant observation of the Vietnamese experience is the analytical view that rents can be developmental and growth enhancing if the configuration of rent management incentivizes industrial upgrade and conditions firm performance Underlining the need to reexamine how economic actors and the state collaborate through formal and informal institutions this study fills a gap in the scholarship of the political economy of rent and rent seeking and how rents might be used for
