

XLS-278 and XLS-270 Manual Pull Stations

SPECIFICATION DATA

DESCRIPTION

The XLS-270 and XLS-278 series Manual Pull Stations are part of Honeywell's Signature Series system. The XLS-270 Fire Alarm Manual Pull Stations feature a "teardrop" shape. They are made from die-cast zinc and finished with red epoxy powder-coat paint complemented by aluminum colored stripes and markings.

With positive pull-lever operation, one "pull" on the station handle breaks the glass rod and turns in a positive alarm, ensuring protection plus fool-proof operation. Pre-signal models (XLS-270P) are equipped with a general alarm (GA) key-switch for applications where two-stage operation is required. The "up-front" highly visible glass rod discourages tampering.

Honeywell's double action single stage XLS-278 station is a contemporary style station made from durable red colored Lexan. To initiate an alarm, first lift the upper door marked "LIFT THEN PULL HANDLE", then pull the alarm handle.

FEATURES

- Single stage double action XLS-278 features a rugged Lexan housing
- XLS-270 models have traditional familiar appearance
- XLS-270 models are available for one stage (GA), two stage (pre-signal), and double action

- Intelligent device with integral microprocessor
- Non-volatile memory

The integral microprocessor built into each Signature Series station provides four important benefits: Self-diagnostics and History Log, Automatic Device Mapping, Stand-alone Operation and Fast, Stable Communication.

Self-Diagnostics and History Log:

Each Signature Series manual station constantly runs self-checks to provide important maintenance information. The results of the self-check are automatically updated and permanently stored in the station's non-volatile memory. This information is accessible for review any time at the control panel, P.C., or by using the SIGA-PRO Signature Program/Service Tool.

The information stored in the station's memory includes:

- Station serial number, address, and station type.
- Date of manufacture, hours of operation, and last maintenance date.
