

STUDYING PEDIGREES ACTIVELY

Genealogical research is gathering or creating a fact that depicts a family history or the transmission of a specific trait. They have been developing for years and have been important tools in identifying patterns of inheritance of specific traits. Pedigrees can depict inheritance of specific characteristics without involving a complex debate on how patterns of inheritance are established and genetically determined structures in our or basic families. They are also used to help in identifying the inheritance of specific characteristics in a family. Below are some examples of pedigree charts.
