### Disruptive Artificial Intelligence and Sustainable Human Resource Management Anamika

Pandey, Balamurugan Balusamy, Naveen Chilamkurti, 2023-12-14 It is well established that every organization is founded with a specific purpose and goals Virtually all business organizations obtain measurements and metrics dealing with outcomes and results However what is reflected on the balance sheet does not necessarily show the actual worth of the organizations and ensure their survival and sustainability Thus the question arises what exactly makes the organizations sustainable and thriving in an ever changing environment There are several examples of companies like Faber Castell Bank of Ireland Chivas DuPont and many more which have been able to sustain and survive over more than 200 years and still have a successful existence in the present era Thus it is important for the organization to pay equal attention to its three bottom lines i.e. people profit and planet for its sustainability which not only meet the needs of the present generation but should have a futuristic approach as well In the present era organizations are adopting a new normal working dynamic and coping with the post

pandemic situations to sustain themselves in the business environment Technology plays a significant role in this new working dynamic and cutting edge technologies like machine learning artificial intelligence blockchain ChatGPT Internet of Things and much more effectively facilitate human functioning at work The book aims to contribute to understanding and developing sustainable human resource management processes and practices aligned with recent technologies It highlights the interconnection among the three bottom line sustainable approaches for the growth and development of the organization Topics discussed in this book include Disruptive Technologies and HR Sustainability Convergence of Innovative Technologies HR and Organizational Growth Triple bottom line Sustainability for HRM Business oriented Talent analytics and HR Sustainability Role of Leadership in sustainable HRM practices

### **Human Resource Management in the Project-Oriented Organization**

Martina Huemann,Anne Keegan,Rodney Turner,2018-09-14 Human Resource Management HRM in project oriented organizations is a relatively unexplored topic though it is essential to the success of the organization and its competitive advantage Project oriented organizations operate differently from classic business organizations in that they adopt temporary organizations in the form of projects and programs therefore the HRM approach they adopt should support this unique structure Human Resource Management in the

Project Oriented Organization takes a look at the multiple facets of HRM and how HRM should be applied in project oriented organizations. It is important for both human resource managers and project managers to adopt specific HRM practices and processes when working in project oriented organizations due to the effect these procedures have on employee perception of the work environment and the employment relationship. Through four in depth case studies over a spread of organizations Human Resource Management in the Project Oriented Organization investigates the distinctive characteristics of project oriented organizations that lead to the need for specific HRM practices and considers the implications for organizations projects and individuals.
