**Myths and Realities** John Whedbee,2005 Myths and Realities creates a comprehensive picture of human life and culture while at the same time placing it within the larger cosmic context In recent decades all areas of human knowledge have expanded to an unprecedented degree so the overall context of human existence is at last beginning to emerge In order to present such a wide ranging portrait Myths and Realities looks at history and human nature from several different viewpoints giving special attention to four major topics culture science religion and

war Science is a major contributor because it is the most reliable means of acquiring knowledge Religion is part of the wider subject of beliefs in general and these have been given particular consideration because any kind of ideology or belief tends to distort the worldview War has been mankind's constant companion but without its underlying mythology it would lose all glory and romance It would just be senseless savagery Although man has many distinctive qualities one of his most remarkable characteristics is his capacity to believe in all kinds of nonsensical notions In fact the human animal will believe practically anything so long as it makes absolutely no sense at all

**On Justice** Mathias Risse, 2020-09-10 Though much attention has been paid to different principles of justice far less has been done reflecting on what the larger concern behind the notion is In this work Mathias Risse proposes that the perennial quest for justice is about ensuring that each individual has an appropriate place in what our uniquely human capacities permit us to build produce and maintain and is appropriately respected for the capacity to hold such a place to begin with Risse begins by investigating the role of political philosophers and exploring how to think about the global context where philosophical inquiry occurs Next he offers a quasi historical narrative about how the notion of distributive justice identifies a genuinely human concern that arises independently of cultural context and has developed into the one we should adopt now Finally he investigates the core terms of this view including stringency moral value ground and duties of justice
