Lab: Human Genetic Traits

Directions: This exercise deals with the action of human genes on desecrate, easily observable traits. You will make observations of these traits in yourself and in your classmates to gain an understanding of how particular genes are expressed in humans. These traits are known as single-gene traits, which are the expressions of two alleles at one gene locus. Have another student check you for each of the traits listed in the table below. Record in the table on the next page your results. Under phenotype list if you are dominant or recessive for the trait and under genotype list possible combinations of genes.

TRAIT	DOMINANT	RECESSIVE
