Handbook of Research on Facilitating Collaborative Learning Through Digital Content and Learning Technologies

Keengwe, Jared, 2022-12-28 Digital content and learning technologies are now the norm at all levels of education However there is evidence to suggest that this digital shift is on a spectrum and the spectrum impacts learners in different ways This means that some instructors who seek to integrate digital content may do so using traditional teaching methods while others use innovative practices to engage learners Those who integrate innovative digital practices align their instructional practice with theories to facilitate student-centered pedagogies that support and improve the depth and scope of student learning A primary characteristic of student-centered learning is facilitating collaborative learning using digital content and learning technologies to engage students as well as to enhance meaningful learning The Handbook of Research on Facilitating Collaborative Learning Through Digital Content and Learning Technologies provides K-20 educators with alternative pedagogical and andragogical models that are innovative and incorporate digital content and learning technologies that

promote constructive learning Further this book explores the relationship between constructivist learning digital content and learning technologies A primary argument in this book is that constructivist teaching strategies such as collaborative learning coupled with digital content and purposeful learning technologies could benefit student learning in ways that are different from those practiced in traditional non digital learning environments Covering topics such as instructional design self efficacy and library engagement this major reference work is an essential resource for pre service teachers teacher educators faculty and administrators of K 20 education librarians researchers and academicians Student Engagement and Participation: Concepts, Methodologies, Tools, and Applications Management Association, Information Resources,2017-06-19 The delivery of quality education to students relies heavily on the actions of an institution s administrative staff Effective teaching strategies allow for the continued progress of modern educational initiatives Student Engagement and Participation Concepts Methodologies Tools and Applications provides comprehensive research perspectives on the multi faceted issues of student engagement and involvement within the education sector Including innovative studies on learning environments self regulation and classroom management this multi volume book is an ideal source for educators professionals school administrators researchers and practitioners in the field of education Chinese as a Second and Foreign Language Education Qiao Yu Cai,2018-01-22 This book presents key issues in the teaching of Chinese as a second or foreign language TCSL or TCFL It investigates how multimedia can help to assist TCSL TCFL and explores practical effects of multimedia assisted teaching at secondary schools in the Philippines It addresses the psychology of TCSL TCFL and discusses various recurring foreign graduate students concerns when learning academic Chinese in graduate institutes in Taiwan It examines issues of educational assessment and testing analyzing the validity of a self made placement test for an immigrant Chinese program as well as the psychological characteristics of adult learners and their implications for immigrant Chinese curriculum design As foreign learners of Chinese grow exponentially this cutting edge read conceptualizes the educational philosophy of TCSL TCFL as a distinctive discipline Resources in Education ,2001-04

Developing a Center for Teaching Excellence Lawrence A. Tomei,James A. Bernauer,Anthony Moretti,2016-09-23 Developing a Center for Teaching Excellence A Case Study Using the Integrated Readiness Matrix builds on the 2015 text Integrating Pedagogy and Technology Improving Teaching and Learning in Higher Education with a focus on teaching in higher education Developing a Center for Teaching Excellence is premised on our contention in the first book that while individual faculty members can independently begin to use the IRM to improve their pedagogical and technological skills in their content areas an organizational structure is needed to sustain ongoing improvement In addition while the first book provided a primer on learning theory as it relates to pedagogy Developing a Center for Teaching Excellence plumbs this topic more deeply from the perspective of the college instructor Further the second book is dedicated to demonstrating how the IRM can be institutionalized as the foundation for providing the structure and support to faculty and how they can help shape
