Bernard Alfred Etcheverry

Irrigation Engineering N N Basak:

Irrigation Engineering N. N. Basak, 1999-10 Irrigation Engineering (Including Hydrology) Sharma R.K. & Sharma T.K., 2008 The First Edition of this treatise on Irrigation Engineering duly subsidised by national Book trust Government of India published in 1984 was highly acclaimed by the engineering teachers and taughts and its revised edition appeared in 1990 The dynamism inherent in the subject necessitated drastic changes in the text prompted by the overwhelming response of irrigation and agriculture engineering students and practising engineers in the country and abroad duly patronised by the publications Shri Ravindra Kumar Gupta Managing Director S Chand Company Ltd New Delhi *Water Resource Engineering (Theory & Practice)* Prakash Chandra Swain, Dillip Kumar Ghose, 2025-06-01 **IRRIGATION AND WATER POWER ENGINEERING** DAS, MADAN MOHAN, SAIKIA, MIMI DAS, 2009-01-24 Designed primarily as a textbook for the undergraduate students of civil and agricultural engineering this comprehensive and well written text covers irrigation system and hydroelectric power development in lucid language The text is organized in two parts Part I Irrigation Engineering deals with the methods of water distribution to crops water requirement of crops soil water relationship well irrigation and hydraulics of well canal irrigation and different theories of irrigation canal design Part II Water Power Engineering offers the procedures of harnessing the hydropotential of river valleys to produce electricity It also discusses different types of dams surge tanks turbines draft tubes power houses and their components The text emphasizes on the solutions of unsteady equations of surge tank and pipe carrying water to power house under water hammer situation It also includes computer programs for the numerical solutions of hyperbolic partial differential equations **KEY FEATURES** Provides worked out examples and problems in SI units Presents all possible methods of design including Ranga Raju Misri's new approach of canal design Gives numerous illustrations to reinforce the understanding of the subject Besides undergraduate students this book will also be of immense use to the postgraduate students of water resources engineering *Management of PTSD in Adults and Children in Primary and Secondary Care* Mr. Rohit Manglik, 2024-07-30 Provides evidence based guidelines for diagnosing and managing post traumatic stress disorder in both adults and children across healthcare settings

Textbook on water management engineering Wagdy Nazir Dimian, The Anglo Egyptian Bookshop 18-12-2024, Tank Irrigation of Dry Zones in India Sebak Kumar Jana, 2014-01-01 Irrigation plays a vital role in improving the yield or productivity in the agricultural sector and the impact of irrigation on reducing poverty is striking Among the irrigation sources tank irrigation is considered important in the dry zones as it can play a very critical role in the sustainable irrigation development in these areas Tank irrigation has various advantages viz tanks can have a wider geological distribution than large scale projects tank investments tend to be less capital intensive tanks have fewer negative environmental impacts and tanks can provide a variety of livelihood options to the rural people Tank irrigation is getting importance currently in the context of climate change and declining ground water table In spite of these advantages tank

irrigation has declined in almost all states in India over the years Causes of a decline in tank irrigation include weakening community co operation and budget constraints There is an urgent need of policy focus for the development of tank irrigation The present book highlights the problems and prospects of tank irrigation in the zones in West Bengal The study is based on the primary survey carried out on 181 tanks in the three districts of West Bengal The book is an outcome of a research project sponsored by ICSSR New Delhi *First International Symposium on Urban Development: Koya as a Case Study* F. M. Khoshnaw, 2013-12-16 This book contains papers presented at the International Symposium on Urban Development held in the Kurdistan region of Iraq organised by the Faculty of Engineering at Koya University The Kurdistan region is rich in oil gas mineral resources and underground water However until recently the political and security issues were such that the region was unable to take advantage of those resources Nowadays Kurdistan is emerging as one of the fastest developing areas in the Middle East with its universities playing a major role in this process The aim of the meeting was to focus the research carried out at academic and government institutions with the needs of Society The International Symposium papers included in this volume cover a wide range of topics and are written by people with different specialisations and perspectives

Practical Civil Engineering P.K. Jayasree, K Balan, V Rani, 2021-05-03 The book provides primary information about civil engineering to both a civil and non civil engineering audience in areas such as construction management estate management and building Basic civil engineering topics like surveying building materials construction technology and management concrete technology steel structures soil mechanics and foundations water resources transportation and environment engineering are explained in detail Codal provisions of US UK and India are included to cater to a global audience Insights into techniques like modern surveying equipment and technologies sustainable construction materials and modern construction materials are also included Key features Provides a concise presentation of theory and practice for all technical in civil engineering Contains detailed theory with lucid illustrations Focuses on the management aspects of a civil engineer s job Addresses contemporary issues such as permitting globalization sustainability and emerging technologies Includes codal provisions of US UK and India The book is aimed at professionals and senior undergraduate students in civil engineering non specialist civil engineering audience **Indian National Bibliography** B. S. Kesavan, 2000 Urban Infrastructure

Research Alok Tiwari, 2016-02-24 This book reviews contemporary research on urban infrastructure in 76 Ethiopian cities It examines urban infrastructure issues in these cities and covers a wide range of topics from sustainability and smart cities to research methods employed by urban infrastructure investigators with regard to Ethiopian cities Research on urban infrastructure legitimacies and modalities has established its value worldwide in recent years though it is still fairly young in the Ethiopian context The first chapter outlines ongoing issues of debate concerning urban infrastructures including but not limited to discourses on sustainability smart cities innovative financing methods and potential partnerships Urban infrastructure issues in Ethiopian cities are examined in the second chapter while the third chapter presents a review of the

most relevant literature for researchers Findings show that the citations in the research reports are mainly from the materials available over the internet including WHO UN Habitat and unpublished local materials The fourth chapter identifies patterns in the findings and recommendations of the research reports discussed The results reveal that there is a wider gap between supply and demand with regard to urban infrastructure in Ethiopian cities a situation that is further aggravated because of the growing urban population and already existing backlogs The fifth chapter reviews the essential methods employed by urban infrastructure investigators in Ethiopian cities In this regard the cross sectional study method with the use of survey method has been broadly adopted among investigators Lastly the book presents a summary and recommendations It was observed that the urban infrastructure boom in Ethiopia is primarily concentrated in the key cities and the current pattern of urban infrastructure provision does not incorporate the notion of sustainability Hence the book calls for setting the agenda of future research on urban infrastructure and services in Ethiopian cities together with the universities private sector and government who should ideally collaborate to produce the knowledge needed to improve quality of life welfare productivity and economic growth
