COMMON ENTRANCE (CE) 13+ SUBJECT GUIDE FOR FAMILIES: SCIENCE

CE 13+ exams are taken by pupils at the end of their entrance application to senior independent schools for entry into Year 9. Science is one of the compulsory core subjects assessed in CE 13+ exams, being well-trodden and highly valued.

This guide provides an explanation of the CE 13+ Science exam structure, and knowledge and skills you will encounter, and what you should expect. It also contains tips and advice for successful science preparation, including a list of recommended resources to help you prepare thoroughly and effectively during your preparation.

COMMON ENTRANCE (CE) 13+ SCIENCE EXAM STRUCTURE

The CE 13+ Science exam is designed to assess pupils' ability to:

- Recall factual information and demonstrate their knowledge and understanding
- Apply their knowledge to familiar and new contexts, including processes and applications
- Recognise the wider importance of their knowledge and understanding to science and to society

The exam will contain questions about practical techniques and scientific processes, assessing whether the pupils can:

- Recall descriptions and measurements with appropriate precision
- Analyse, interpret, explain and evaluate a scientific method
- Complete a results table and draw conclusions from the results

A maximum of 20% of the marks in each paper will be based on a 'Thinking and Writing as a Scientist' section of the CE 13+ Science qualification. This will encourage pupils to think about scientific processes and evidence in their own words, considering the validity and value of the results and identifying problems or improvements.

The exam papers will also contain a section of 'open-ended questions' which require the type of response to questions that is often required in the classroom.

COMMON ENTRANCE (CE) 13+ SCIENCE

The CE 13+ Science exam can be taken at either **Preparation in Families** or the **Preparation in Schools** format. Pupils taking the exam in the **Preparation in Families** format will receive support and advice from their parents and teachers, while pupils taking the exam in the **Preparation in Schools** format will receive support and advice from their school and teachers.
