Applications

- Test copper and triple play
- Test physical to services layers

Access network technologies are evolving quickly to keep pace with consumer demand for high-bandwidth services. Offerings such as high-speed Internet access, high-definition TV, and video on demand are pushing network performance requirements to new levels and increase complexity for technicians who turn up, troubleshoot, and maintain services. Therefore, service providers must equip technicians with a single, scalable easy-to-use test tool that addresses a wide range of test applications quickly and accurately under all field conditions.

The T-BERD/MTS-4000 is the one tool providers and technicians can both rely on, because it provides:

- The industry's first single handheld test platform with advanced fiber, copper, and triple-play testing capabilities.
- A multifunctional, scalable solution with several test applications that enable a quick return on investment.
- Multilayer testing to accelerate turn-up and installation.
- An easy-to-use, icon-based graphical user interface (GUI) for testing with minimal training.
