Ministry of Basic Education and Culture,1997 *Namibia National Bibliography*, 1993 *International Conference on Teacher Education for Namibia*, 1991 Responsible Design in Applied Linguistics: Theory and Practice Albert Weideman,2016-09-05 No mere history of applied linguistics this volume presents a framework for interpreting the development of applied linguistics as a discipline It offers a systematic account of how applied linguistics has developed articulating the philosophical premises that have informed both its emergence and its subsequent growth It asks questions that are seldom asked Where does the discipline derive from Where is it heading What directions has it already taken Which direction should it embrace in future What is the relative worth of all of the variation in design and methods that have been developed by applied linguists In defining applied linguistics as a discipline of design it takes us beyond the diffuse and sometimes contradictory conventional definitions of the field The framework of design principles it proposes not only helps to explain the historical development of applied linguistics but also provides a potential justification for solutions to language problems It presents us with nothing less than an emerging theory of applied linguistics **Issues in Education**, 1999
