Self-Determination and Secession in International Law Christian Walter,Antje von Ungern-Sternberg,Kavus Abushov,2014-06-05 Peoples and minorities in many parts of the world assert a right to self determination autonomy and even secession from a state which naturally conflicts with that state s sovereignty and territorial integrity The right of a people to self determination and secession has existed as a concept within international law since the American Declaration of Independence in 1776 but the exact definition of these concepts and the conditions required for their application remain unclear The Advisory Opinion of the International Court of Justice concerning the Declaration of Independency of Kosovo 2010 which held that the Kosovo declaration of independence was not in violation of international law has only led to further questions This book takes four conflicts in the post Soviet Commonwealth of Independent States CIS as a starting point for examining the current state of the law of self determination and secession Four entities Transnistria Moldova South Ossetia Abkhazia both Georgia and Nagorno Karabakh Azerbaijan claim to be entitled not only to self determination but also to secession from their mother state For this entitlement they rely on historic affiliations and on charges of discrimination and massive human rights violations committed by their mother state This book sets out its analysis of these critical issue in three parts providing a detailed understanding of the principles of international

law on which they rely The first part sets out the contours and meaning of self determination and secession including an overall assessment of secession within the Commonwealth of Independent States The second section provides case studies investigating the events in Transnistria South Ossetia Abkhazia and Nagorno Karabach in greater detail The third and final section extends the scope of the examination providing a comparative analysis of similar conflicts involving questions of self determination and secession in Kosovo Western Sahara and Eritrea **Law and the Arab-Israeli Conflict** Steven E.

Zipperstein,2020-02-18 During the British Mandate for Palestine 1922 1948 Arabs and Jews repeatedly used the law to gain leverage and influence international opinion especially in three dramatic and largely forgotten trials involving two issues the interplay between conflicting British promises to the Arabs and Jews during World War I and the parties rights and claims to the Wailing Wall Focusing on how all three parties Arab Jewish and British used the law and the legal process to advance their objectives during the Mandate years this volume reveals how the parties availed themselves with varying degrees of success of the law and the legal process The book examines various legal arguments they proffered and how that early tendency to resort to the law as a tool a resource and a weapon in the conflict has continued to this day The research relies almost entirely on primary source documents including transcripts of the public and secret testimony before the Shaw Lofgren and Peel Commissions diaries letters government files and other original sources This study explores the origins of many of the fundamental legal arguments in the Arab Israeli conflict that prevail to this day Filling a gap in research this is a key text for scholars and students interested in the Arab Israeli conflict Lawfare and the Middle East The Politics of

Marketising Asia T. Carroll,D. Jarvis,2014-05-29 Economic growth continues to transform the economic and political landscape of Asia Equally the policies now being adopted to promote private sector participation re structure state entities and reduce the presence of the state in the provision of public goods and services are tied to fundamental transformations in Asia s state society relations The global cast of contributors present a timely analysis of the impact of neo liberalism on Asia s developmental policies and the organisation of Asian states and markets Ironically the developmental state that has historically driven Asia s rapid economic transformation is now threatened by an increasingly dominant neoliberal agenda that aims to roll back the state in the name of market fundamentalism *Why Allies Rebel* Barbara Elias,2020-07-02

Civic Engagement in Food System Governance Alan R. Hunt,2015-10-05 The local food movement is one of the most active of current civil engagement social movements This work presents primary evidence from over 900 documents interviews and participant observations and provides the first descriptive history of local food movement national policy achievements in the US from 1976 to 2013 and in the UK from 1991 to 2013 together with reviews of both the American and

British local food movements It provides a US UK comparative context significantly updating earlier comparisons of American British and European farm and rural policies The comparative perspective shows that over time more effective strategies for national policy change required social movement building strategies such as collaborative policy coalitions capacity building for smaller organizations and policy entrepreneurship for joining together separate rural farming food and health interests In contrast narrowly defined single issue campaigns often undermined long term policy change even if short term wins emerged By profiling interviews of American and English movement leaders policymakers and funders the book demonstrates that democratic participation in food policy is best supported when funders incentivize groups to work together and overcome their differences

Preventive Detention of Terror Suspects Diane Webber, 2016-01-08 Preventive detention as a counter terrorism tool is fraught with conceptual and procedural problems and risks of misuse excess and abuse Many have debated the inadequacies of the current legal frameworks for detention and the need for finding the most appropriate legal model to govern detention of terror suspects that might serve as a global paradigm This book offers a comprehensive and critical analysis of the detention of terror suspects under domestic criminal law the law of armed conflict and international human rights law The book looks comparatively at the law in a number of key jurisdictions including the USA the UK Israel France India Australia and Canada and in turn compares this to preventive detention under the law of armed conflict and various human rights treaties The book demonstrates that the procedures governing the use of preventive detention are deficient in each framework and that these deficiencies often have an adverse and serious impact on the human rights of detainees thereby delegitimizing the use of preventive detention Based on her investigation Diane Webber puts forward a new approach to preventive detention setting out ten key minimum criteria drawn from international human rights principles and best practices from domestic laws The minimum criteria are designed to cure the current flaws and deficiencies and provide a base line of guidance for the many countries that choose to use preventive detention in a way that both respects human rights and maintains security
