Entering 7th Grade Summer Math:

The Power of Middle School Keen J. Babbage, 2012-09-14 The middle school years are a maze of academic duties human growth and self development discovering self identity and increasing social interaction with other people This maze can be an adventure of achievement and opportunity or it can be a struggle of difficulty and disappointment As these experiences are the impetus or foundation for many later achievements in academics careers and personal life it is imperative that educators maximize these formative years by helping middle school students successfully travel through this maze despite its ups and downs its twists and turns and its new challenges to master and the old issues to resolve For instance educators must support students who have fallen behind so as to thwart their reduced likelihood of turnaround in high school Likewise educators must challenge exceptional students in order to perpetuate their enthusiasm for learning and prepare them for college studies By discussing the comprehensive roles and duties of school administrators counselors and teachers The Power of Middle School addresses how to maximize middle school curriculum and extra curricular activities for the academic personal and professional benefits of all students

Women and Girls in STEM Fields Heather Burns Page, 2024-09-19 Written by a respected science educator and advocate for women and girls in STEM fields this one stop resource provides a rich overview of efforts to provide women and girls with greater access to educational and career opportunities in traditionally male dominated STEM fields Since the passage of Title IX the numbers of American women working in STEM fields have increased particularly in the social and biological sciences Nonetheless women continue to be underrepresented in STEM disciplines accounting for less than a third of the current STEM workforce When the intersection of sociocultural factors such as race ethnicity and socioeconomic background are examined alongside gender some demographic groups of women continue to lag in terms of representation in all STEM fields The reasons cited for this continued state of affairs remain hotly debated even as efforts intensify to break down longstanding gender barriers and bring women and girls into the worlds of science technology engineering and mathematics Women and Girls in STEM Fields provides wide ranging complementary coverage of every aspect of the issue from the historical barriers that confronted generations of American women and girls interested in pursuing careers in various STEM disciplines to the laws and movements that dismantle some of those obstacles Features include smartly organized chapters on major trends issues debates and historical moments carefully selected profiles of the key organizations and individuals that have shaped discussions of this subject in Washington D C and across the USA a suite of original essays from educators scholars and women writing about their firsthand experiences in today s STEM world

Transforming Public Education Stacey Childress, 2010 Transforming Public Education features nineteen cases that profile entrepreneurs who are pursuing opportunities to create pattern breaking social change in our public schools For nearly two decades education entrepreneurs have been working to transform the K 12 public education system in the United States Social entrepreneurship has become part of the language of a new generation of

idealists many of whom are focused on education The nineteen cases in this book profile entrepreneurs who are pursuing opportunities to create pattern breaking social change in our public schools in particular by creating high quality educational opportunities for low income and minority students who are dramatically underserved by the current public education system Based on a popular course developed and taught at the Harvard Business School this casebook is organized into four modules Understanding the Context of Urban Schooling in the United States Tackling the People Problem Focusing on Performance Launching and Growing New Schools Students are invited to explore four overarching questions Why are there opportunities for entrepreneurs in a sector that is funded with public dollars and delivered by public agencies Why is entrepreneurial activity aggregating around certain opportunities What are the possibilities and constraints faced by entrepreneurs in each opportunity area How can we evaluate the impact of these entrepreneurs efforts
