There is still a demand for people who can design accounting systems, supervise their operation, analyze complex transactions, and interpret reports. Other users are voters, legislators, government officials, contributors to nonprofits, suppliers and customers.

6. The internal role of accounting is to serve the organization's internal operating functions. It does this by providing useful information for internal users in completing their tasks more effectively and efficiently. By providing this information, accounting helps the organization reach its overall goals.
7. Accounting professionals offer many services including auditing, management advice, tax planning, business valuation, and money management.
