Screen Epiphanies Geoffrey Macnab,2019-07-25 What I remember was that it was the first time a piece of fiction had had such a devastating emotional effect on me A lot of children remember seeing cartoons Pinocchio or Bambi or something that breaks their heart I remember seeing The Blue Angel and it breaking my heart It was the first time I realised there was an adult world that adults could damage each other or destroy each other emotionally It might have fed into a whole series of epiphanies about my own upbringing I was living in a family where my grandparents had separated in quite complex circumstances Perhaps it resonated with some elements of that to do with simply how love can be a rupturing and damaging emotion as well as a healing one Also to see somebody who is in an authority position made so small so diminished by the feeling of having no control Anthony Minghella The Blue Angel In a strange lethal way I was suddenly wildly attracted to the process of filmmaking even though it is described as a nightmare a matter of horror in that film There is a trancelike atmosphere Suddenly I was reminded that you can feel like it s a matter of life and death when you make a film It changed from being a mediocre feeling of emptiness in your life to something that feels necessary I realised that filmmaking can be many things and it can be narcotic in a way You can become addicted to it Thomas Vinterberg Hearts of Darkness Screen Epiphanies brings together 32 leading film makers to discuss the films that inspired them to pursue a career in the movie business or which influenced their own film making practice or which stayed with them because of their depictions of familiar communities intense human relationships or unknown worlds Beautifully illustrated with images from the films discussed Screen Epiphanies is a thought provoking and often moving insight into the creative process and the way in which artists are inspired by each other s work but also into the centrality of cinema in all our lives and its power to change our ambitions and how we see the world around us **iPhone: The Missing Manual** David Pogue,2019-11-05 The iPhone 11 11 Pro 11R and 11Max are faster than ever and have more powerful cameras With the latest edition of this bestselling guide you get a funny gorgeously illustrated guide to the tips shortcuts and workarounds that will turn you into an iPhone master Written by David Pogue Missing Manual series creator New York Times columnist and Emmy winning tech correspondent for
