Government Reports, Announcements & Index, 1993-10 Pervasive and Mobile Sensing and Computing for Healthcare, Subhas Chandra Mukhopadhyay, Octavian A. Postolache, 2012-09-14. The pervasive healthcare system focuses towards achieving two specific goals: the availability of eHealth applications and medical information anywhere and anytime, and the invisibility of computing. Furthermore, pervasive health system encompasses new types of sensing and communication of health information, as well as new type of interactions among health providers and people among patients, among patients and researchers, and among patients and corporations. This book aims at promoting the discussion on current trends in technologies and concepts that help integrate health monitoring and healthcare more seamlessly to our everyday lives, regardless of space and time, but also present cutting edge perspectives and visions to highlight future development. The book presents not only the state-of-the-art technologies and solutions to tackle the critical challenges faced by the building and development of the pervasive health system, but also potential impact on society at social, medical, and technological level. 27th European Symposium on Computer Aided Process Engineering, 2017-09-21. 27th European Symposium on Computer Aided Process
