

HTML and CSS

Building a Website: Designing a Website Page with CSS

1. Designing a Website Page with CSS

The first design decision you must make is whether to use a template or a custom design. A template is a pre-designed page layout that you can modify to suit your needs. A custom design is a page layout that you create from scratch.

This document is a template. It is designed to be used as a starting point for your website. It contains a header, a main content area, and a footer. The header contains the title of the page and the name of the website. The main content area contains the text of the page. The footer contains the copyright information and the contact information.

The following is a list of the design decisions that you must make when creating a website page with CSS:

2. Designing a Website Page with CSS

The first design decision you must make is whether to use a template or a custom design. A template is a pre-designed page layout that you can modify to suit your needs. A custom design is a page layout that you create from scratch.
