Teaching Computational Thinking and Coding in Primary Schools David Morris, Gurmit Uppal, David Wells, 2017-05-22
This is a guide to the teaching of computing and coding in primary schools and an exploration of how children develop their computational thinking. It covers all areas of the National Curriculum for primary computing and offers insight into effective teaching. The text considers three strands of computer science: digital literacy and information technology. The teaching of coding is especially challenging for primary teachers, so it highlights learning on this, giving practical examples of how this can be taught. For all areas of the computing curriculum, the text also provides guidance on planning age appropriate activities with step by step guides and details of educationally appropriate software and hardware. This book helps you to connect what you need to teach with how it can be taught and opens up opportunities in the new curriculum for creative and imaginative teaching. It also includes the full National Curriculum Programme of Study for Computing key stages 1 and 2 as a useful reference for trainee teachers. *Activities Based on The Iron Man by Ted Hughes* Jillian Powell, 2016

Addressing Special Educational Needs and Disability in the Curriculum: Art Kim Earle, Gill Curry, 2017-09-06
The SEND Code of Practice 2015 reinforced the requirement that all teachers must meet the needs of all learners. This topical book provides practical, tried and tested strategies and resources that will support teachers in making art lessons accessible and interesting for all pupils, including those with special needs. The authors draw on a wealth of experience to share their understanding of special educational needs and disabilities and show how the art teacher can reduce or remove any barriers to learning. Offering strategies that are specific to the context of art teaching, this book will enable teachers to develop students' understanding, appreciation and enjoyment of art and design, advance students' sense of enquiry about visual and tactile experiences, help pupils to realise their creative intentions through the development of technical competence and manipulative skills, provide opportunities for personal and imaginative enquiry, sample a variety of art and design projects to use in their own lessons, plan the classroom layout and display to enhance learning, successfully train and fully use the support of their teaching assistants. An invaluable tool for continuing professional development, this text will be essential for secondary art teachers and their teaching assistants seeking guidance specific to teaching art to all pupils, regardless of their individual needs. The book will also be of interest to secondary SENCOs, senior management teams and ITT providers. Full of practical ideas and inspiration and supported by free online resources, this is an essential tool for art teachers and teaching assistants and will help to deliver successful inclusive lessons for all pupils. **Literacy** Sue Palmer, Pie Corbett, 2003

Kidnapped in the Yukon By Lucy Berton Woodward , *The Creative Teaching of Religious Education*: Heather Meacock,2014-07-18 This book is based on the vision that religious education RE can be taught creatively with relevance to the lives of teachers and their pupils today in predominantly secular society RE should be taught from the perspective of knowledge and understanding of religions to foster tolerance and to dispel prejudice and misunderstanding without any attempt to influence children s personal beliefs The philosophy which underpins this book is the belief that RE is best taught within an integrated approach to the humanities

The humanities are about what it is to be human in time and place and in terms of belief Therefore RE is linked with history geography and the creative arts within five themes human survival light and dark leadership the environment and time and motion As well there is accurate and detailed subject knowledge about the six major world faiths and plays scenes about them written and produced in schools by myself The book is in alignment with the British National Curriculum which requires that RE is taught in schools and with the latest Ofsted Report 2010 which states that there is a need for guidance for teachers and more creative and innovative approaches to link RE with the wider curriculum **Transforming Reading**
