Create a CERT Response Plan for a Typical IT Infrastructure

Student Name: _____ Anthony Nguyen _____

Answer:

The first and foremost thing requires building and implementing a CERT response plan. This involves identifying the potential consequences, incidents and preventing them by applying those incidents.

Like any other IT infrastructure, the more you can plan, prepare, and practice, the more prepared you are to handle any risk situation. This helps preventing them to apply the consequences, incident response methodology to handling incidents specifically in a portion of the network infrastructure.

Lab Assessment Questions:

Q. What are incident security controls or security measurements to you recommended for this purpose the network? Answer: Build a CERT response plan, backup your system.
