**Submarine Cables** Douglas R. Burnett,Robert Beckman,Tara M. Davenport,2013-10-24 Submarine fiber optic cables are critical communications infrastructure for States around the world They are laid on the seabed are often no bigger than a garden hose and transmit immense amounts of data across oceans These cables are the backbone of the internet and phone

services and underpin core State interests such as the finance sector shipping commerce and banking industries Without the capacity to transmit and receive data via submarine cables the economic security of States would be severely compromised Despite the fact that 95 per cent of all data and telecommunications between States are transmitted via submarine cables there is little understanding of how these cables operate As a result some States have developed policies and laws that undermine the integrity of international telecommunications systems Submarine Cables The Handbook of Law and Policy provides a one stop shop of essential information relating to the international governance of submarine cables The Handbook is a unique collaboration between international lawyers and experts from the submarine cable industry. It provides a practical insight into the law and policy issues that affect the protection of submarine cables as well as the laying maintenance and operation of such cables In addition the law and policy issues in relation to other special purpose cables such as power cables marine scientific research cables military cables and offshore energy cables are also addressed The Global Politics of Science and Technology - Vol. 2 Maximilian Mayer, Mariana Carpes, Ruth Knoblich, 2014-08-20 An increasing number of scholars have begun to see science and technology as relevant issues in International Relations IR acknowledging the impact of material elements technical instruments and scientific practices on international security statehood and global governance This two volume collection brings the debate about science and technology to the center of International Relations It shows how integrating science and technology translates into novel analytical frameworks conceptual approaches and empirical puzzles and thereby offers a state of the art review of various methodological and theoretical ways in which sciences and technologies matter for the study of international affairs and world politics. The authors not only offer a set of practical examples of research frameworks for experts and students alike but also propose a conceptual space for interdisciplinary learning in order to improve our understanding of the global politics of science and technology. The second volume raises a plethora of issue areas actors and cases under the umbrella notion techno politics Distinguishing between interactional and co productive perspectives it outlines a toolbox of analytical frameworks that transcend technological determinism and social Report on cross-sectoral impacts on deep-sea fisheries in the high seas Food and Agriculture Organization constructivism of the United Nations, Johnson, D.E.; Turner, P.J.; Barrio Froján, C., This report presents a baseline study to evaluate the potential for cross sector cooperation as a significant work strand under the Deep Seas Fisheries under the Ecosystem Approach DSF Project component of the 2nd Phase of the GEF Common Oceans Programme Deep sea fisheries DSF in areas beyond national jurisdiction ABNJ occur at depths between 200 and 2 000 metres and typically require large vessels long periods at sea and target species with a high market value The demersal and benthic species targeted vary from region to region but are often fished on specific areas of continental slopes and isolated topographic features e g oceanic seamounts Many deep sea fish are long lived slow growing and mature at a relatively old age The low resilience and high vulnerability of these species means that individual marine sectors and the cumulative impact of human activities can adversely affect fish

populations for whom fisheries management is regulated by deep sea regional fisheries management organizations dsRFMOs A desk study to screen and scope marine sectors in a timeframe up to 2050 revealed varying impacts on deep sea fish deep sea habitats deep sea food webs upon which the fish depend and or deep sea fishers The Global War for Internet Governance Laura DeNardis, 2014-01-14 The Internet has transformed the manner in which information is exchanged and business is conducted arguably more than any other communication development in the past century Despite its wide reach and powerful global influence it is a medium uncontrolled by any one centralized system organization or governing body a reality that has given rise to all manner of free speech issues and cybersecurity concerns The conflicts surrounding Internet governance are the new spaces where political and economic power is unfolding in the twenty first century This all important study by Laura DeNardis reveals the inner power structure already in place within the architectures and institutions of Internet governance It provides a theoretical framework for Internet governance that takes into account the privatization of global power as well as the role of sovereign nations and international treaties In addition DeNardis explores what is at stake in open global controversies and stresses the responsibility of the public to actively engage in these debates because Internet governance will ultimately determine Internet freedom Google AdSense Quick Guide Michael Miller, 2012-03-12 With the new version of AdSense Google has changed virtually everything about the interface and added some new features The navigation structure has been completely overhauled as have the available types of ads Google has reorganized the former AdSense Channels into five basic types of ads Content Domains Feeds Mobile Content and Search In addition Google has tied in game and YouTube advertising into AdSense to make it easier to place ads in online games and YouTube videos Google also has made it easier and more prominent to enable ad blocking that is to keep certain types of ads or ads from certain advertisers from appearing on your website Google has also beefed up its AdSense reporting system increasing the types of reports available and adding a new Overview page that displays key information in a single snapshot While the new interface is a step forward for managing an AdSense account existing AdSense users may find it strange and confusing and have trouble finding out how to do what they re used to doing That's where this Quick Guide comes in Get up to speed quickly and easily Then get back to making money Server Time Protocol Recovery Guide Octavian Lascu, Hans-Peter Eckam, George Kozakos, Paulo Vitor Pereira, IBM Redbooks, 2014-05-20 Server Time Protocol STP is a server wide facility that is implemented in the Licensed Internal Code LIC of the IBM zEnterprise EC12 zEC12 IBM zEnterprise 196 z196 IBM zEnterprise 114 z114 IBM System z10TM Enterprise Class z10 EC System z10 Business Class z10 BC IBM System z9 Enterprise Class z9 EC and System z9 Business Class z9 BC It provides improved time synchronization in a sysplex or non sysplex configuration This IBM Redbooks publication will help you plan for and recover from a failure affecting your Mixed or STP only Coordinated Timing Network It is intended for technical support personnel requiring information about Recovery concepts and definitions Identifying and taking appropriate actions for recovering from a failed component in a Coordinated Timing Network Readers
