inteligencia artificial y el Derecho de datos. Para ello se ha podido contar con un elenco de especialistas en el sector que sin duda hace de la obra resultante una aportación doctrinal de indudable utilidad. Con carácter particular entre los sectores seleccionados destaca por su trascendencia el de la salud digital donde problemáticas relacionadas con sistemas inteligentes para la prevención de enfermedades ya sea a iniciativa del profesional de la medicina o al margen del uso de wearables y servicios digitales o por infracciones de los datos personales de salud pueden determinar si bien a través de distintos cauces normativos posibles vías de reclamación indemnizatoria. En el campo quirúrgico la cirugía 4.0 que integra la cirugía robótica y personalizada por su creciente implantación ha merecido una especial consideración en la obra. Se efectúan igualmente amplias consideraciones acerca de la transparencia y explicabilidad para prevenir la discriminación algorítmica en el uso de los sistemas de inteligencia artificial. Dentro de los sectores con mayor implementación de las tecnologías de inteligencia ha sido objeto de consideración asimismo el uso de vehículos autónomos incluida su problemática en la vertiente del Derecho internacional privado. Situados en el marco normativo que proporciona el Reglamento de Inteligencia artificial (RIA) se efectúan correspondientes análisis acerca de la categorización del riesgo que el mismo contempla y donde se observa un régimen jurídico tendente a salvaguardar los riesgos más graves por el empleo de los sistemas de inteligencia artificial en particular en la salud, seguridad y derechos consagrados en la Carta Europea de Derechos Fundamentales. De igual forma las implicaciones jurídicas que despliega la inteligencia artificial generativa por infracciones normativas del Derecho de protección de datos personales. Se incluyen también los rasgos que deben estar presentes en el seguro de responsabilidad civil profesional de los operadores de inteligencia artificial a partir de las previsiones normativas del referido Reglamento de Inteligencia Artificial.
