McKinsey's Marvin Bower Elizabeth Haas Edersheim, 2010-12-13 I had the privilege of working closely with Marvin and McKinsey for many years This book makes Marvin come to life and perpetuates him as a role model Peter F Drucker A wonderful book about a wonderful man In many ways Marvin's McKinsey framed the hypotheses in our own search for excellence for example passion for values belief in people as the prime resource and willingness to let people experiment As well as I thought I knew Marvin however this remarkable book drawing on the collective memories of those who worked most closely with him taught me a ton about how extraordinary the man really was and what made him that way Many have called Drucker the man who invented management I think history will conclude that both he and Marvin Bower share that pedestal Bob Waterman coauthor of *In Search of Excellence* Marvin Bower became a legend not just within McKinsey Company but within professional services and the business world more broadly In everything he did and said he embodied the professional approach and the importance of values This book sheds remarkable insight on a remarkable man and on the power of constancy of purpose Ian Davis Worldwide Managing Director McKinsey Co It is as Marvin would have wanted it simple honest fact based wonderful stories with a long term perspective An insightful read about the father of management consulting Lois Juliber retired COO Colgate Palmolive This book provides fascinating insight into the early days of modern management consulting It is an extremely enlightening look at the origin of one of America's most important professions and one of America's most innovative leaders Thomas H Lee founder Chairman and President Thomas H Lee Partners L P

Patterson's American Educational Directory Homer L. Patterson, 1929 Delay, Deny, Defend Jay M. Feinman, 2010-03-18 An expose of insurance injustice and a plan for consumers and lawmakers to fight it Over the last two decades insurance has become less of a safety net and more of a spider's web sticky and complicated designed to ensnare as much as to aid Insurance companies now often try to delay payment of justified claims deny payment altogether and defend these actions by forcing claimants to enter litigation Jay M Feinman a legal scholar and insurance expert explains how these trends developed how the government ought to fix the system and what the rest of us can do to protect ourselves He shows that the denial of valid claims is not occasional or accidental or the fault of a few bad employees It's the result of an increasing and systematic focus on maximizing profits by major companies such as Allstate and State Farm Citing dozens of stories of victims who were unfairly denied payment Feinman explains how people can be more cautious when shopping for policies and what to do when pursuing a disputed claim He also lays out a plan for the legal reforms needed to prevent future abuses This expos will help drive the discussion of this increasingly hot button issue
