years saw a growing interest in the study of subjectivity as the linguistic expression of speaker involvement Intersubjectivity defined by Traugott as the linguistic expression of a speaker writer s attention to the hearer reader on the other hand has so far received little explicit attention in its own right let alone systematic definition and operationalization Intersubjectivity and seemingly related notions such as interpersonal meaning appraisal stance and metadiscourse frequently appear in cognitive functional accounts as well as historical and more applied approaches These domains offer partly conflicting uses of intersubjectivity differ in the overall scope of the concept and the phenomena it may cover This book brings together contributions from a variety of different approaches with the aim of disentangling the current web of intertwined notions of intersubjectivity Rather than focusing on the potentially conflicting views the volume aspires to resolve some of the conceptual puzzle by cross fertilization between the different views and spark discussion on how to operationalize intersubjectivity in linguistic research Originally published in English Text Construction 5 1 2012 **Perspectives on Evidentiality in Spanish** Carolina Figueras Bates,Adrián Cabedo Nebot,2018-07-24 Evidentiality in communication is better investigated in delimited and recognizable contexts where the multiple levels of meaning in interactional practices are manifested Taking this viewpoint the present volume explores the interrelations between evidentials and textual genre in Spanish Adopting a discursive perspective all of the chapters examine how the functional category of evidentiality is brought into discourse which set of linguistic strategies evidentiality makes explicit what counts as evidence in certain contexts and in certain textual genres and what particular pragmatic meanings these mechanisms acquire invoke and project onto the on going discourse In particular this book is concerned with the relationship between evidential expressions and the pragmatic meaning s triggered by those expressions and the role of genre in shaping the evidential meanings The volume is addressed to both theoretically and empirically minded scholars in the disciplines of Pragmatics Discourse Analysis Sociolinguistics Communication Studies and Psychology *How Students Write: A Linguistic Analysis* Laura Louise Aull,2020-04-01 Broad generalizations about people today are a familiar feature of first year student writing How Students Write brings a fresh perspective to this perennial observation using corpus linguistics techniques This study analyzes sentence level patterns in student writing to develop an understanding of how students present evidence draw connections between ideas relate to their readers and ultimately learn to construct knowledge in their writing Drawing on both first year and upper level student writing the book examines the discourse of students at different points in their education It also distinguishes between argumentative and analytic essays to explore the way school genres and assignments shape students choices In focusing on sentence level features such as hedges perhaps and boosters definitely this study shows how such rhetorical choices work together to open or close opportunities for thoughtful exchanges of ideas Attention to these features can help instructors foster civil discourse design effective assignments and expose and question norms of higher education **Self- and Other-Reference in Social Contexts** Minna Nevala,Minna Palander-Collin,2024-03-15 The chapters in this volume study

the construction representation and negotiation of a variety of social roles through self and other reference markers or the discussion of reference as a tool for identification The chapters uncover new insights both from a historical and present day perspective and show how positioning the self and other varies what kind of reference choices language users make and what follows from these choices The data come from a variety of public texts private encounters and questionnaires and the methodologies range from macro to micro perspectives including combinations of qualitative close reading and quantitative corpus methods and synchronic and diachronic perspectives The findings enhance our understanding and use of reference practices in the context of global institutional political and multicultural as well as media texts **Engagement in Professional Genres** Carmen Sancho Guinda,2019-04-24 Engagement has turned essential in today s communication as professional communities are becoming more specialised and transient and their audiences more diverse Promotionalism and competitiveness in addition increasingly pervade human activity and thus engaging readers listeners and viewers to attract and persuade them is part of the know how of almost every profession The eighteen chapters in this book written by well known discourse analysts from different nationalities and research backgrounds and with various interests and understandings of communicative engagement guide us through a discovery of perspectives and strategies across work settings and practices genres semiotic modes discourses disciplines and theoretical frameworks and methods They build a mosaic that leads to a broad picture of meta discursive engagement as di stance and raises current issues challenges and future research directions *Cross-linguistic and Cross-cultural Perspectives on Academic Discourse* Eija Suomela-Salmi,Fred Dervin,2009 The goal of this volume is to examine academic discourse AD from cross linguistic and cross cultural perspectives The adjective Cross cultural in the volume title is not just limited to national contexts but also includes a cross disciplinary perspective Twelve scientific fields are under scrutiny in the articles One of the unique aspects of the volume is the inclusion of a variety of foreign languages English as a lingua franca Spanish French Swedish Russian German Italian and Norwegian Besides in several articles dealing with oral AD comparisons and parallels are also established with written AD The research methodologies used in the studies are varied and they offer an overview of the diversity and richness of approaches to AD All in all it is hoped that the volume appeals not only to young researchers but also to confirmed scholars interested in cross linguistic and cross cultural aspects of AD It will also be of interest to language teachers or teachers who are involved with e g international students and academic mobility **Re-Assessing Modalising Expressions** Pascal Hohaus,Rainer Schulze,2020-11-15 Mood modality and evidentiality are popular and dynamic areas in linguistics Re Assessing Modalising Expressions Categories co text and context focuses on the specific issue of the ways language users express permission obligation volition intention possibility and ability necessity and prediction linguistically Using a range of evidence and corpus data collected from different sources the authors of this volume examine the distribution and functions of a range of patterns involving modalising expressions as predominantly found in standard

American English British English or Hong Kong English but also in Japanese The authors are particularly interested in addressing co textual manifestations of modalising expressions as well as their distribution across different text types and thus filling a gap research was unable to plug in the past Thoughts on categorising or re categorising modalising expressions initiate and complement a multi perspectival enterprise that is intended to bring research in this area a step forward *The Rise of Discourse Markers* Bernd Heine,Gunther Kaltenböck,Tania Kuteva,Haiping Long,2021-06-24 Discourse markers constitute an important part of linguistic communication and research on this phenomenon has been a thriving field of study over the past three decades However a problem that has plagued this research is that these markers exhibit a number of structural characteristics that are hard to interpret based on existing methodologies such as grammaticalization This study argues that it is possible to explain such characteristics in a meaningful way It presents a cross linguistic survey of the development of discourse markers their important role in communication and their relation to the wider context of sociocultural behaviour with the goal of explaining their similarities and differences across a typologically wide range of languages By giving a clear definition of discourse markers it aims to provide a guide for future research making it essential reading for students and researchers in linguistics and anyone interested in exploring this fascinating linguistic phenomenon

The Grammar of Interactives Bernd Heine,2023-01-16 This book explores a domain of discourse processing referred to as interactive grammar based on an analysis of grammatical descriptions of over 100 languages spoken across the world While much previous work has treated interactive grammar as a fairly marginal part of language Bernd Heine describes it here as a distinct category that contrasts with sentence grammar both in its functions and its structural behavior He identifies ten types of interactives i e extra clausal expressions of linguistic discourse attention signals directives discourse markers evaluatives ideophones interjections response elicitors response signals social formulae and vocatives The analysis reveals that speakers make use of two contrasting modes for structuring their discourses both of which are needed for successful communication one is sentence grammar which has a propositional format and analytic organization the other is interactive grammar which has a holophrastic organization and a focus on social communication While the argument structure of sentence grammar is shaped by the propositional format of sentences that of interactive grammar is shaped by the indexical nature of the situation of discourse This distinction shows interesting correlations both with findings from neurolinguistic studies on differential activity in the two hemispheres of the human brain and with observations from social psychology on the differences between systems of reasoning and judgment *Writing(s) at the Crossroads* Georgeta Cislaru,2015-08-05 This volume aims at contributing to an interpretive approach to writing and its dynamics It offers a general scope on the process product interface by multiplying the points of view on both the process and the product and their links The book presents new findings and perspectives in the study of language and writing both theoretical and methodological e g dual process models of writing pragmatics of writing linguistic analysis of psycholinguistic units such as

bursts of production It also presents new tools for a longitudinal approach to the writing steps key stroke logging with integrated linguistic modules and textometric analysis of written texts The volume is composed of five sections that highlight different approaches to writing from the viewpoint of multiple disciplines Anthropology Cognitive Psycholinguistics Communication Studies Didactics Applied Linguistics Discourse Analysis Literacy Sociolinguistics and Text Genetics This book will be relevant for scholars and students interested in writing text analysis literacy learning and teaching As of January 2019 this e book is freely available thanks to the support of libraries working with Knowledge Unlatched
