The Acer Timeline AS3810T-6415 is a flagship member of Acer's new Timeline series, which offers consumers rich-thin, long-lasting notebooks with starting prices well under a thousand dollars. It's part of a rapidly growing trend in notebooks that are smaller and cheaper than mainstream ones, but larger and pricier than netbooks. For \$899 (starting at \$699), the 13.3-inch 3810T outshines most value-priced notebooks with an outstanding eight hours of battery life, and an extremely slim profile. You also get a big, speedy 500GB hard drive, and performance that's more than good enough for everyday computing. If you can live without an optical drive, which might be a deal breaker for some, the Timeline 3810T is a great buy.

Super-thin Design

With the lid closed, the Timeline 3810T's matte gray, fingerprint-proof plastic lid is similar to the company's business-oriented TravelMate series. In contrast to the \$699 Aspire 3835, which, for the same price, sports a more attractive golden-bronze brushed-metal chassis, and an integrated optical drive. On the other hand, the 3810T is significantly lighter at 3.8 pounds (vs. 4.2 for the 3835) and marginally thinner (0.9 inches at its thinnest point vs. 1.0 inches).

This machine is no *M&M* X340, which weighs 2.8 pounds, but it's still refreshingly light to carry. Overall, the matte-gray-and-black color scheme is a bit conservative, but the keys' flush and island-style layout keep it current.

Pros

- Thin, lightweight design
- Extra-long battery life
- Fast hard drive
- Excellent HD webcam
- Strong wireless range

Cons

- Lacks optical drive
- Soft touch button
- Speakers not very loud

Excellent review, but the "Transcode test" is really wonky! How can the Core 2 Duo machine score lower than the \$699 X340, which offers just the performance according to PCMark Vantage? The answer is that it can't, unless something was very wrong when you ran that test. If you still have the machine, you should rerun the test because the numbers don't add up at all.
