Much Ado About Nonexistence Fiction And Reference Avrum Stroll:

Much Ado About Nonexistence Avrum Stroll, 2007-04-26 The problem of the nature of fiction and the problem of nonexistence are closely tied because fiction often talks about nonexistent entities In Fiction Reference and Nonexistence A P Martinich and Avrum Stroll two of America s leading philosophers explore fiction and undertake an analytic philosophical study of fiction and its reference and its relation to truth Included in the discussion is the authors new contemporary theory of fiction developed as an extension of the speech act theory of H P Grice as well as the relationship between nonexistence and Bertrand Russell s well known theory of definite descriptions and Hilary Putnam s theory of the relationship between common names and the world [Much Ado about Nonexistence](#) Aloysius Martinich, Avrum Stroll, 2007 Fiction Reference and Nonexistence contains a new contemporary theory of fiction and discusses the connection between language and reality

Secrecy and Disclosure in Victorian Fiction Leila Silvana May, 2016-07-15 Why were the Victorians more fascinated with secrecy than people of other periods What is the function of secrets in Victorian fiction and in the society depicted how does it differ from that of other periods and how did readers of Victorian fiction respond to the secrecy they encountered These are some of the questions Leila May poses in her study of the dynamics of secrecy and disclosure in fiction from Queen Victoria s coronation to the century s end May argues that the works of writers such as Charlotte Bront William Makepeace Thackeray Mary Elizabeth Braddon Edward Bulwer Lytton and Arthur Conan Doyle reflect a distinctly Victorian obsession with the veiling and unveiling of information She argues that there are two opposing vectors in Victorian culture concerning secrecy and subjectivity one presupposing a form of radical Cartesian selfhood always remaining a secret to other selves and another showing that nothing can be hidden from the trained eye May calls the relation between these clashing tendencies the dialectics of secrecy and disclosure May s theories of secrecy and disclosure are informed by the work of twentieth

century social scientists She emphasizes Georg Simmel's thesis that sociality and subjectivity are impossible without secrecy and Erving Goffman's claim that sociality can be understood in terms of performativity the presentation of the self in everyday life and his revelation that performance always involves disguise hence secrecy May's study offers convincing evidence that secrecy and duplicity in contrast to the Victorian period's emphasis on honesty and earnestness emerged in response to the social pressures of class gender monarchy and empire and were key factors in producing both the subjectivity and the sociality that we now recognize as Victorian

Informal Philosophy Avrum Stroll, 2009-04-16 Informal Philosophy provides an original look at how we should understand and teach philosophy Avrum Stroll persuasively argues that philosophy should be evaluated using its own methodology and should not merely mimic formal scientific analysis because while modern science does inform our philosophical views about man and his place in nature it does not solve philosophical problems

Fiction and Representation Zoltán Vecsey, 2019-06-17 One of the basic insights of the book is that there is a notion of non relational linguistic representation which can fruitfully be employed in a systematic approach to literary fiction This notion allows us to develop an improved understanding of the ontological nature of fictional entities A related insight is that the customary distinction between extra fictional and intra fictional contexts has only a secondary theoretical importance This distinction plays a central role in nearly all contemporary theories of literary fiction There is a tendency among researchers to take it as obvious that the contrast between these two types of contexts is crucial for understanding the boundary that divides fiction from non fiction Seen from the perspective of non relational representation the key question is rather how representational networks come into being and how consumers of literary texts can and do engage with these networks As a whole the book provides for the first time a comprehensive artefactualist account of the nature of fictional entities

The Lonely Mind of God Sherman O'Brien, 2021-01-26 Current students of philosophy or armchair philosophers Want the answer to the Primordial Existential Question Why is there something rather than nothing While history has produced no shortage of attempted answers clearly none is the answer Now comes the unique perspective of acosmism to provide a complete and plausible answer After a lifetime of reflection acosmist Sherman O'Brien offers this analysis of the issues and a thoughtful reasoned answer to philosophy's most vexing question The acosmic answer requires no faith whatsoever either in supernatural or unexplained causes in fact it discourages it Acosmism rejects both traditional religion and philosophically neglectful science As a metaphysical system it is based on an epistemological insight with implications for immortality determinism ethics and ultimate purpose Reasoned wholly from the ground up its conclusion is the very meaning of existence The solution to the Omniscience Riddle becomes the key to understanding how the question is best stated and understood This book represents one person's effort to make sense of what is true and what only seems to be so Why is there something rather than nothing What is your potential role in the entirety of experience This foray into acosmism offers a path to the genuine understanding of both existence and reality Note the main text constitutes roughly two

thirds of the total pages the remainder being mostly endnotes *Meaning in Law: A Theory of Speech* Charles W. Collier, 2009-08-07 Despite widespread admiration for the First Amendment's protection of speech this iconic feature of American legal thought has never been adequately theorized Existing theories of speech proceed on the basis of legal doctrine and judicial decisionmaking social and political philosophy or legal and intellectual history But these are not the disciplines one would most naturally turn to in analyzing speech *Meaning in Law: A Theory of Speech* takes a new and different approach This book develops a general legal theory of speech on the basis of linguistic theory and the philosophy of language The opening chapters retrace the main conceptual stages in the expression of meaning from natural meaning through symbolism to signification Later chapters analyze symbolic speech communication by nonlinguistic means as the key to developing an intention based theory of speech The essential elements of the theory are 1 nonnatural meaning 2 the signaling of intent 3 the recognition of intent and 4 establishing a convention A final chapter applies these insights to the case law of symbolic speech and resolves some basic confusions in the legal literature This analysis proceeds by way of an original distinction between actual conduct in the real world and the ideal conduct described in a statute The former may be described both as communicative and noncommunicative while the latter has already been conceptualized as either communicative or noncommunicative This distinction clears up a major legal quandary how conduct that counts as communication may nevertheless be regulated or prohibited without running afoul of the First Amendment's protection of speech *Rehabilitating Inerrancy in a Culture of Fear* Carlos R. Bovell, 2012-02-20 The notion that the Bible is inerrant in everything it teaches is something those with conservative upbringings are conditioned to take for granted However after being exposed to scholarship in biblical studies and other disciplines some draw the unexpected conclusion that inerrancy as a doctrine is in dire need of serious revamping Unfortunately inerrantist politics and culture are making the constructive restorative process impossible to initiate In *Rehabilitating Inerrancy in a Culture of Fear* Carlos Bovell offers a synoptic overview of the issues to be addressed if inerrancy is to survive as a viable bibliological option
