

# Personal SWOT

## Identify Needs

Understand yourself and discover who you are and what you want

You have a choice to make when embarking on any journey. It is possible to simply set off and go somewhere that is anywhere but here. Choose a direction and move! Where do you end up? Well... somewhere! This is actually how most people approach their life and their career.

Think about the last time that you decided to go somewhere specific. Firstly you would know where you are at the start of the journey. Then you identify your destination. Then you identify the route from here to there and the means of transport. In choosing the mode of getting from here to there, you would take into consideration what you have that will enable you to get there from here. Perhaps a car, with fuel and of course, you would have the ability and license to drive. If that isn't an option for you, you might choose a bus, a train, maybe even cycle or walk. You would choose the most appropriate transport for you in your circumstances.

The same is true for developing your leadership

Do you know your strengths, you weaknesses, the opportunities you have and the threats to your leadership, your career, your life? \_\_\_\_\_

## Define Outcome

We identify the opportunities and threats to yourself and your leadership future.

You will map your Strengths, Weaknesses, Opportunities and Threats on a grid. (Yes, it's the same idea as an organization SWOT analysis).

Together, your strengths and opportunities help identify your long term goals. While your weaknesses and the threats facing you need to be mitigated, planned for or managed to ensure that your goals remain attainable and realistic.

## Explore Options

To begin your personal SWOT analysis, you begin by asking yourself a series of questions, answering them in the appropriate of each of the four quadrants:

### Strengths

**What sets you apart from others?**

Your GAPP54 report will have identified your leadership strengths and you should include these here. You may use another, reputable leadership assessment for this.

Think also about your other strengths, all of your experience, education, hobbies as well.

- What are you really good at?
- What do other people ask you to do for them?
- What have you done that makes you really proud
- What connections do you have access to that others do not have?
- What skills do others recognize in you?

their organization's ability to achieve its mission and thereby gain a strategic mission advantage even in the face of uncertainty. This book explores in depth the development and implementation of strategy to achieve mission advantage. A notable feature of this edition is its emphasis on learning through topical and timely case studies that depict strategic challenges healthcare leaders commonly face. These challenges range from issues of capitation, the formation of accountable care relationships, and competitive positioning to the dissolution of alliances and vertical integration, among others. Along with the necessary concepts and practical means for understanding, implementing, and monitoring strategies, this book also provides financial tools for directing strategic decisions and methods for analyzing healthcare markets. Noteworthy topics include the following and more: The shift to value-based care and reimbursement models; The continued evolution of healthcare reform and its effect on healthcare market structure; Hospital and healthcare business models and how they are changing; Disruptive innovation in healthcare; The impact of increasing consolidation of the insurance and provider sectors; The advantages and challenges of alliances and partnerships, both domestic and international; Healthcare stakeholders and their engagement; Accountability in healthcare strategic plan execution. **Community Organizing and Community Building for Health and Welfare** Meredith Minkler, 2012-07-16. The third edition of *Community Organizing and Community Building for Health and Welfare* provides new and more established ways to approach community building and organizing, from collaborating with communities on assessment and issue selection to using the power of coalition building, media advocacy, and social media to enhance the effectiveness of such work. With a strong emphasis on cultural relevance and humility, this collection offers a wealth of case studies in areas ranging from childhood obesity to immigrant worker rights to health care reform. A tool kit of appendixes includes guidelines for assessing coalition effectiveness, exercises for critical reflection on our own power and privilege, and training tools such as policy bingo. From former organizer and now President Barack Obama to academics and professionals in the fields of public health, social work, urban planning, and community psychology, the book offers a comprehensive vision and on-the-ground examples of the many ways community building and organizing can help us address some of the most intractable health and social problems of our times. Dr. Minkler's course syllabus: Although Dr. Minkler has changed the order of some chapters in the syllabus to accommodate guest speakers and help students prep for the midterm assignment, she uses the actual book layout in a way that should flow quite naturally if instructors wish to use it in the order in which chapters appear.
