Gormley Jr.,David L. Weimer,1999-03 In recent years consumers professional organizations government officials and third party payers have become increasingly concerned about how to assess the quality of the services provided by organizations in both the private and the public sectors One new approach is the organizational report card which compares the performance of organizations such as public schools colleges hospitals and HMOs This book offers the first comprehensive study of such instruments It discusses the circumstances under which they are desirable alternatives to other policy instruments such as regulation how they should be designed who is likely to use them and for what purpose and what role if any government should have in their creation Informed by cases drawn from education health and other policy areas this book develops a conceptual framework for analyzing these issues It explores the tradeoffs in measuring performance the methods of communicating results effectively to mass and elite audiences and the ways in which organizations respond to the data gathered      **American Journal of Education** ,1895      *Profiles of Successful African-American Men* Jaami Dawan, Ed.D.,2014-07-18 On a sunny Saturday morning at Chicago s Simeon Career Academy back in 2010 at a Concerned Christian Men CCM Breakfast I was engaged in a stimulating personal conversation with the late Dr William Lackland His insights rocked my world That conversation eventually inspired me to write a book This book Dr Lackland shared some of his university experiences with me The dean advised him to enroll into several remedial courses including reading and math The dean s attitude conveyed his doubts about William s ability to pass these courses much less completing the university curriculum Dr Lackland refused to let this stranger deter him from earning his Ph D in Chemistry no less Listening to Dr Lackland s story whet my appetite for other successful African American men s stories I had a strong suspicion that African American men though different in many

ways are very much alike Most Black men continue to be confronted by seemingly overwhelming odds but WE persist This realization motivated me to use our experiences with success to create a directory of African American men I shared my directory idea with friends and asked them for help It was my vision to make it a team project I got no takers Thus I changed the idea from a directory to a book Over several months I researched and read the literature about successful Black boys and men I then created an online survey to be completed by a few African American men I know The survey delved into their childhood family employment profession and the like More than fifty men of color were sent the survey by email to complete Thirteen of them completed the survey I have worked and learned from time to time with most of these men Thus I have had personal experiences with each of them I wanted to use successful African American men s life experiences as a blueprint for Black boys and young men who are striving to become successful I want them to realize that the men that they are reading about were once boys just like them

*Developing Grading and Reporting Systems for Student Learning* Thomas R. Guskey, Jane M. Bailey, 2024-07-24 Teachers parents students administrators and community members all agree that we need better grading and reporting systems Often these systems are inadequate because they are part of a tradition that can go unexamined and unquestioned for years Here is the first serious look at the issue written to provide all those involved especially teachers with a coherent and thoughtful framework Guskey and Bailey offer four pillars of successful grading and reporting systems Communication is the primary goal of grading and reporting Grading and reporting are integral parts of the instructional process Good reporting is based on good evidence Creating change in grading and reporting requires creating a multi faceted reporting system Written to help readers develop a deeper and more reflective understanding of the various aspects of the subject Thomas Guskey and Jane Bailey s work brings organization and clarity to a murky and disagreement filled topic Here is a practical and essential guide for teachers administrators or anyone concerned with understanding and implementing best practices in grading and reporting systems **Journal of Educational Method** ,1927 **A Conservative's Primer on the Bible** Bob

Ward, 2011-10-02 This book is a rational attempt to document what is referred to in the Bible as worshipping in truth The approach is to first convince the reader that the Bible is the true word of God that is is infallible and that it is the only source of God s message to man that we are ever to get With that accomplished the scriptures are used to describe God s attributes often by showing how God dealt with the various characters and peoples in events recounted in the Bible Still using only scriptures to develop the narrative it goes into God s selection of a particular people to prepare future Christians for the fulfillment of His plan for mankind The need for salvation is revealed and Jesus is presented to deliver salvation to the eternal exaltation of Jesus The conversion process whereby one goes from lost sinner to saved saint is described **The Western**
