*Design, Analysis and Test of Logic Circuits Under Uncertainty* Smita Krishnaswamy, Igor L. Markov, John P. Hayes, 2012-09-21 Logic circuits are becoming increasingly susceptible to probabilistic behavior caused by external radiation and process variation In addition inherently probabilistic quantum and nano technologies are on the horizon as we approach the limits of CMOS scaling Ensuring the reliability of such circuits despite the probabilistic behavior is a key challenge in IC design one that necessitates a fundamental probabilistic reformulation of synthesis and testing techniques This monograph will present techniques for analyzing designing and testing logic circuits with probabilistic behavior      **Make: Technology on Your Time Volume 30** Mark Frauenfelder, 2012-04-18 The first magazine devoted entirely to do it yourself technology projects presents its 30th quarterly edition for people who like to tweak disassemble recreate and invent cool new uses for technology Until recently home automation was an unfulfilled promise systems were gimmicky finicky user hostile or potentially unsecure But today thanks to a new crop of devices and technologies home automation is useful fun and maker friendly Using smartphones wireless networks the internet simple microcontrollers and even gesture recognition DIY style Smart Homes can now do everything promised and more for much less and MAKE shows you how in Volume 30      **Solar House** Terry Galloway, 2012-05-16 Covering the full life span of the project from siting issues through specific design features to maintenance of the property and equipment this is a comprehensive guide to designing planning and building a solar house The author uses his experience of living in a solar house to inform the reader of the technology and practices needed for the design operation and maintenance of the solar home Each of the technologies of the house such as space heating and cooling domestic hot water and electric power technologies are critiqued from the point of view of the owner resident with the author using his thirty years experience of living in a solar home This provides home owners who are thinking of going solar with first hand evidence of best practice and provides the architect and designer with the knowledge
