Levine,Heywood T. Sanders,2025-03-31 Urban Politics brings together the classic and contemporary literature on urban politics and history with today s pressing urban issues This book s central theme is power going beyond the formal institutions and structures of city and suburban government to explain who defines the urban agenda and who benefits from local services and investments This book also presents a number of subthemes including the impact of globalization the dominant place of economic development concerns in the urban agenda and the continuing importance of race and poverty in big city and suburban politics It also places cities in the larger context of state and federal government politics and policies and discusses the impact of those policies Urban Politics seeks to engage students with photographs real world case studies and boxed material that employs films video television shows and popular music to illustrate how urban politics works Urban Politics has been updated and revised to reflect the complex circumstances of both urban success stories and the difficult realities of cities left behind and to add new material on concentrated poverty climate change and the impacts of the COVID 19 pandemic The 11th edition of Urban Politics is an ideal introductory text for students of urban suburban and regional politics and policy This book s coverage of contemporary issues urban bureaucracy policy analysis and intergovernmental relations also makes it an effective textbook for classes in urban administration and planning Support material for this book can be found at [www.routledge.com](http://www.routledge.com) 9781032270654     **Horses, Power and Place** Neil Ward,2023-12-05 Horses Power and Place explores the evolution of humanity s relationship with horses from early domestication through to the use of the horse as a draught animal an agricultural industrial and military asset and an animal of sport and leisure Taking an historical approach and using Britain as a case study this is the first book length exploration of the horse in the more than human geography of a nation It traces the role and implications of horse based mobility for the evolution of settlement structure urban morphology and the rural landscape It maps the growth and various uses of horses to the point of peak horse in the

early twentieth century before considering the contemporary place of the horse in twenty first century economy and society It assesses the role of the horse in the formation of places within Britain and in the formation of the nation The book reflects on the implications of this historical and contemporary equine geography for animal geographies and animal studies It argues for the study of animals in general in how places are made not just by humans Written in a clear and accessible style this book will be essential reading for students and scholars of animal geography and animal studies more widely **Taken For A Ride** Matteo Rizzo, 2017-05-19 How does public transport work in an African city under neoliberalism Who owns what in it Who has the power to influence its shape and changes in it over time What does it mean to be a precarious and informal worker in the private minibuses that provide public transport in Dar es Salaam These are the main questions that inform this in depth case study of Dar es Salaam s public transport system over more than forty years The growth of cities and informal economies are two central manifestations of globalization in the developing world Taken for a Ride addresses both drawing on long term fieldwork in Dar es Salaam Tanzania and charting its public transport system s journey from public to private provision This new addition to the Critical Frontiers of Theory Research and Practice in International Development Studies series investigates this shift alongside the increasing deregulation of the sector and the resulting chaotic modality of public transport It reviews state attempts to regain control over public transport and documents how informal wage relations prevailed in the sector The changing political attitude of workers towards employers and the state is investigated from an initial incapacity to respond to exploitation to the political organisation and unionisation which won workers concessions on labour rights A longitudinal study of workers throws light on patterns of occupational mobility in the sector and the political and economic interests that shaped the introduction of Bus Rapid Transit in Dar es Salaam and local resistance to it are analysed Taken for a Ride reveals the political economy of public transport exposing the limitations of market fundamentalist and post colonial scholarship on economic informality the urban experience in developing countries and the failure to locate the agency of the urban poor within their economic and political structures It is both a contribution and a call for the contextualised study of actually existing neoliberalism An Endogenous Theory of Property Rights Peter Ho, 2018-10-15 From a neo liberal neo classical paradigm secure formal and private property rights are crucial to fostering sustained development Institutions that fail to respond to shifting socio economic opportunities are thus forced to make new arrangements The enigma is posed by developments on the ground Why would the removal of authoritarian institutions during the Arab Spring or Iraq War not increase market efficiency but rather cause the reverse while China and India despite persisting insecure informal and common institutions featured sustained growth This collection posits that understanding these paradoxes requires a refocusing from form to function detached from normative assumptions about institutional appearance In so doing three things are accomplished First starting from case studies on land it is ascertained that the argument can be meaningfully extended to labour capital and beyond Second the argument validates the Credibility Thesis

that is once institutions persist they fulfil a function Third the collection studies development broadly construed by including the modes of production and beyond the rural and urban the developed and developing This is why it reviews property rights from China and India to Turkey Mexico and Malaysia covering issues such as customary rights and privatization mining and pastoralism dam building and irrigation but also state owned banks trade unions and notaries This book was originally published as a special issue of The Journal of Peasant Studies

**The Rise and Rise of Illegal Ticket Touting** Alessandro Moretti, 2023-02-10 This book presents an ethnographic study of contemporary ticket touts in the UK Despite the recent interest in the topic of black market ticket sales media coverage and parliamentary interventions over the last ten years have revealed a widespread lack of knowledge with regard to the phenomenon of touting and the players engaging in the practice The Rise and Rise of Illegal Ticket Touting sheds light on the world of touting and delivers an authentic picture of the individuals involved of their methods values and motivations for performing ticket touting as an organised entrepreneurial deviant activity The touts varied methods of buying and selling tickets the hierarchical structures and strict ethos of their criminal organisations and their specific *modi operandi* for evading detection and arrest both on the streets and online are focal points of the study Of equal importance are the touts attitudes perceptions and adaptations to or outright dismissal of society's legal and moral frameworks This book illuminates why historic and renewed attempts to challenge ticket touting have been unsuccessful focusing on inadequate legislation a

lack of enforcement and the widespread corruption and exploitable loopholes that exist within the official primary ticket market An accessible and compelling read *The Rise and Rise of Illegal Ticket Touting* will appeal to students and scholars of criminology sociology social policy policing and all those with an interest in live music and sport and the hidden practices that lurk beneath the surface *Muslim Fashion* Reina Lewis,2015-10-15 In the shops of London s Oxford Street girls wear patterned scarves over their hair as they cluster around makeup counters Alongside them hip twenty somethings style their head wraps in high black topknots to match their black boot cut trousers Participating in the world of popular mainstream fashion often thought to be the domain of the West these young Muslim women are part of an emergent cross faith transnational youth subculture of modest fashion In treating hijab and other forms of modest clothing as fashion Reina Lewis counters the overuse of images of veiled women as evidence in the prevalent suggestion that Muslims and Islam are incompatible with Western modernity *Muslim Fashion* contextualizes modest wardrobe styling within Islamic and global consumer cultures interviewing key players including designers bloggers shoppers store clerks and shop owners Focusing on Britain North America and Turkey Lewis provides insights into the ways young Muslim women use multiple fashion systems to negotiate religion identity and ethnicity **Asymmetric Crisis in Europe and Possible Futures** Johannes Jäger, Elisabeth Springler,2015-04-10 The crisis in Europe is often discussed as a crisis of European integration or a crisis of national economies within Europe Both the methodological Europeanism and methodological nationalism miss out the important links between economic and political processes at different spatial scales within Europe and therefore asymmetries and phenomena of uneven development In addition a discussion of possible scenarios which systematically addresses the implications of anti crisis policies is missing This volume seeks to close this gap by systematically integrating the analysis of economic policy or technical solutions to the crisis within a broader framework of political economy It argues that combining critical political economy approaches and post Keynesian perspectives allows for a systematic understanding of the economic and political dimensions of the crisis Although both approaches have the capacity to deal with asymmetries and uneven development the heterogeneity in Europe has been an often largely neglected dimension of analysis However this recent crisis has shown that this is an essential dimension which has to be addressed in order to better understand the dynamics of European development and integration Hence this book aims to deal with asymmetries in Europe and to bridge the gap between the two perspectives This work will initiate an integrative debate that is crucial for a deeper understanding of the current crisis and is an important resource for all students and scholars of IPE European political economy and European politics *The State of Conservation* Joshua Nygren,2025-01-06 In the twentieth century natural resource conservation emerged as a vital force in US politics laying the groundwork for present day sustainability Merging environmental agricultural and political history Joshua Nygren examines the political economy and ecology of agricultural conservation through the lens of the conservation industrial complex This evolving public private network which united the US

Department of Agriculture Congress local and national organizations and the agricultural industry guided soil and water conservation in rural America for much of the century Contrary to the classic tales of US environmental politics and the rise and fall of the New Deal Order this book emphasizes continuity Nygren demonstrates how the conservation policies programs and partnerships of the 1930s and 1940s persisted through the age of environmentalism and how their defining traits anticipated those typically associated with late twentieth century political culture The conservation industrial complex promoted a development oriented brand of conservation that aided the rise of large scale capital intensive agriculture which continues today It also reshaped the physical and political landscapes of the country leading to impressive conservation victories and spectacular failures by privileging some environments degrading others and intensifying farm depopulation In the name of environmental protection agricultural conservation made rural America less equal Rubble Music Abby Anderton,2019-07-23 As the seat of Hitler s government Berlin was the most frequently targeted city in Germany for Allied bombing campaigns during World War II Air raids shelled celebrated monuments left homes uninhabitable and reduced much of the city to nothing but rubble After the war s end this apocalyptic landscape captured the imagination of artists filmmakers and writers who used the ruins to engage with themes of alienation disillusionment and moral ambiguity In Rubble Music Abby Anderton explores the classical music culture of postwar Berlin analyzing archival documents period sources and musical scores to identify the sound of civilian suffering after urban catastrophe Anderton reveals how rubble functioned as a literal figurative psychological and sonic element by examining the resonances of trauma heard in the German musical repertoire after 1945 With detailed explorations of reconstituted orchestral ensembles opera companies and radio stations as well as analyses of performances and compositions that were beyond the reach of the Allied occupiers Anderton demonstrates how German musicians worked through cleared away or built over the debris and devastation of the war

**Asylum after Empire** Lucy Mayblin,2017-04-05 Asylum seekers are not welcome in Europe But why is that the case For many scholars the policies have become more restrictive over recent decades because the asylum seekers have changed This change is often said to be about numbers methods of travel and reasons for flight In short we are in an age of hypermobility and states cannot cope with such volumes of others This book presents an alternative view drawing on theoretical insights from Third World Approaches to International Law post and decolonial studies and presenting new research on the context of the British Empire The text highlights the fact that since the early 1990s for the first time the majority of asylum seekers originate from countries outside of Europe countries which until 30 60 years ago were under colonial rule Policies which address asylum seekers must the book argues be understood not only as part of a global hypermobile present but within the context of colonial histories Rival Visions Dustin Gish,Andrew Bibby,2021-02-05 The emergence of the early American republic as a new nation on the world stage conjured rival visions in the eyes of leading statesmen at home and attentive observers abroad Thomas Jefferson envisioned the newly independent states as a federation of republics united by common

experience mutual interest and an adherence to principles of natural rights His views on popular government and the American experiment in republicanism and later the expansion of its empire of liberty offered an influential account of the new nation While persuasive in crucial respects his vision of early America did not stand alone as an unrivaled model The contributors to *Rival Visions* examine how Jefferson's contemporaries including Washington Adams Hamilton Madison and Marshall articulated their visions for the early American republic Even beyond America in this age of successive revolutions and crises foreign statesmen began to formulate their own accounts of the new nation its character and its future prospects This volume reveals how these vigorous debates and competing rival visions defined the early American republic in the formative epoch after the revolution
