## Geography Paper 2 Memo 2013 November:

**Big Data Applications in Geography and Planning** Mark Birkin, Graham Clarke, Jonathan Corcoran, Robert Stimson, 2021-05-28 This unique book demonstrates the utility of big data approaches in human geography and planning Offering a carefully curated selection of case studies it reveals how researchers are accessing big data what this data looks like and how such data can offer new and important insights and knowledge Tigary: The Panarchy of War Mirjam Van Reisen, Munyaradzi Mawere, 2024-11-17 The Tigray War 2020 2022 left a deep and lasting impact not only on Tigray but also on the wider Horn of Africa In this second book in a three part series the authors examine the devastation wrought by the war on Tigray s cultural heritage and identity The deliberate destruction of ancient cultural sites and the assault on the Tigrayan people s identity have fueled a desire for greater autonomy among the people of Tigray to protect their future Through the lens of Panarchy this book explores how the war s effects extend far beyond Tigray reshaping the dynamics of the entire region Crucially it uncovers Eritrea s secret role in the conflict which was deliberately concealed by Ethiopia Eritrean forces were implicated not only in atrocities but also in the use of particularly cruel and inhumane sexual violence intended to break the spirit of the Tigrayan people and erase Tigray as an ethnic and cultural group This ethnographic research conducted in collaboration with universities inside and outside Ethiopia reveals the profound transformations caused by the war with consequences that will reverberate for years to come It sheds light on the war s long term impact and highlights the urgent need for international attention on the challenges faced by Tigray and the wider region Deepening Neoliberalism, Austerity, and Crisis Julien Mercille, Enda Murphy, 2015-07-07 From bank bailouts to austerity Europe s and Ireland s response to the economic crisis has been engineered specifically to shift the burden of paying for the crisis onto ordinary citizens while investors financiers bankers and the privileged are protected The authors expose the class based nature of Ireland s crisis resolution Muslim Fashion Reina Lewis, 2015-10-15 In the shops of London s Oxford Street girls wear patterned scarves over their hair as they cluster around makeup counters Alongside them hip twenty somethings style their head wraps in high black topknots to match their black boot cut trousers Participating in the world of popular mainstream fashion often thought to be the domain of the West these young Muslim women are part of an emergent cross faith transnational youth subculture of modest fashion In treating hijab and other forms of modest clothing as fashion Reina Lewis counters the overuse of images of veiled women as evidence in the prevalent suggestion that Muslims and Islam are incompatible with Western modernity Muslim Fashion contextualizes modest wardrobe styling within Islamic and global consumer cultures interviewing key players including designers bloggers shoppers store clerks and shop owners Focusing on Britain North America and Turkey Lewis provides insights into the ways young Muslim women use multiple fashion systems to negotiate religion identity and ethnicity **Migrations in the Mediterranean** Ricard Zapata-Barrero, Ibrahim Awad, 2023-10-21 This open access Regional Reader describes population movement circulating within the Mediterranean

area for any reason or from any region be them European African Asian or originating from any of the Mediterranean shores It showcases a plurality of approaches to and applications of Mediterranean migration contributing to a regional approach to migration studies thereby defending this regional approach by scaling Mediterranean migration issues This book covers a large set of questions related Mediterranean migrations to the migration research agenda such as market and economy politics and policies super diversity and intersectionality media society welfare and the environment through five main parts Geo political Mediterranean Relations Governance Policies and Politics Mobility drivers and Agency Cities History and Social Transformations and Economy and Labour Markets This Regional Reader provides an interesting read to scholars researchers but also policy makers and civil society organizations high representatives international foundations and institutions interested in linking the Mediterranean and migration

Protection and Empire Lauren Benton, Adam Clulow, Bain Attwood, 2017-11-02 For five centuries protection has provided a basic currency for organising relations between polities Protection underpinned sprawling tributary systems permeated networks of long distance trade reinforced claims of royal authority in distant colonies and structured treaties Empires made routine use of protection as they extended their influence projecting authority over old and new subjects forcing weaker parties to pay them for safe conduct and sometimes paying for it themselves The result was a fluid politics that absorbed both the powerful and the weak while giving rise to institutions and jurisdictional arrangements with broad geographic scope and influence This volume brings together leading scholars to trace the long history of protection across empires in Asia Africa Australasia Europe and the Americas Employing a global lens it offers an innovative way of understanding the formation and growth of empires and uncovers new dimensions of the relation of empires to regional and global order

**London** John Broich, 2013-05-03 As people crowded into British cities in the nineteenth century industrial and biological waste byproducts and then epidemic followed them Britons died by the thousands in recurring plagues Figures like Edwin Chadwick and John Snow pleaded for measures that could save lives and preserve the social fabric The solution that prevailed was the novel idea that British towns must build public water supplies replacing private companies But the idea was not an obvious or inevitable one Those who promoted new waterworks argued that they could use water to realize a new kind of British society a productive social machine a new moral community and a modern civilization They did not merely cite the dangers of epidemic or scarcity Despite many debates and conflicts this vision won out in town after town from Birmingham to Liverpool to Edinburgh authorities gained new powers to execute municipal water systems But in London local government responded to environmental pressures with a plan intended to help remake the metropolis into a collectivist society The Conservative national government in turn sought to impose a water administration over the region that would achieve its own competing political and social goals The contestants over London s water supply matched divergent strategies for administering London s water with contending visions of modern society And the matter was never pedestrian The struggle over these visions was joined by some of the most colorful figures of the late

Victorian period including John Burns Lord Salisbury Bernard Shaw and Sidney and Beatrice Webb As Broich demonstrates the debate over how to supply London with water came to a head when the climate itself forced the endgame near the end of the nineteenth century At that decisive moment the Conservative party succeeded in dictating the relationship between water power and society in London for many decades to come *Coast Guards and Ocean Politics in the Arctic* Andreas Østhagen,2019-11-04 This book is about how coast guards are becoming states foremost tool to manage changes occurring in ocean politics generally and in the Arctic specifically It looks at states rights at sea changes occurring in the Arctic region how coast guards are handling issues arising and how international cooperation can deal with some of the related challenges

**Risky Business** Lawrence S. Powell,2013-02-01 Today s insurance regulation in the United States is at a crossroads while some segments of the insurance industry are moving away from a state based approach toward regulation others favor a greater role for the federal government despite the opposition from other stakeholders Written by leading scholars in risk management this book addresses some of the most important questions facing the future of state and federal regulation of the insurance industry Insurance regulation in the United States is at a crossroads It used to be a given that the insurance industry would resist efforts to move away from state based approaches toward regulation but no more Some now favor a greater role for the federal government while others oppose calls to transition to a federal system In any case might not a competitive and innovative system of free market insurance be preferable to best serve the interests of consumers The current debate over insurance regulation is increasingly a struggle between competing interest groups and opposing ideologies about the proper scope of government a conflict that affects individuals decisions about how much risk to undertake whether those decisions involve driving a motorcycle in dense urban traffic or building a home in a flood fire hurricane or other high risk zone But what types of reforms would best serve the interests of consumers And what lessons can be learned from previous reform efforts In *Risky Business Insurance Markets and Regulation* edited by Lawrence S Powell leading scholars in risk management address some of the most important questions about the future of insurance regulation and the potential for market based alternatives The book examines not only the impetus behind various reform proposals but also the historical development of insurance regulation in the United States In so doing *Risky Business* examines alternative regulatory and deregulatory frameworks used in the United States and in the European Union and whether such options are beneficial or not *Livable Streets 2.0* Bruce Appleyard,2021-03-22 *Livable Streets 2 0* offers a thorough examination of the struggle between automobiles residents pedestrians and other users of streets along with evidence based practical strategies for redesigning city street networks that support urban livability In 1981 when Donald Appleyard s *Livable Streets* was published it was globally recognized as a groundbreaking work one of the most influential urban design books of its time Unfortunately he was killed a year later by a speeding drunk driver This latest update *Livable Streets 2 0* revisited by his son Bruce updates the topic with the latest research new case studies and best human centered

practices for creating more livable streets for all It is essential reading for those who influence future directions in city and transportation planning urban design and community regeneration and placemaking Incorporates the most current empirical research on urban transportation and land use practices that support the need for more livable communities Includes recent case studies from around the world on successful projects campaigns programs and other efforts Contains new coverage of vulnerable populations     Covert Regime Change Lindsey A. O'Rourke,2018-12-15 Lindsey A O Rourke is Assistant Professor of Political Science at Boston College Her research focuses on regime change international security and US foreign policy

**Decolonization and Conflict** Martin Thomas,Gareth Curless,2017-06-15 Insurgency based irregular warfare typifies armed conflict in the post Cold War age For some years now western and other governments have struggled to contend with ideologically driven guerrilla movements religiously inspired militias and systematic targeting of civilian populations Numerous conflicts of this type are rooted in experiences of empire breakdown Yet few multi empire studies of decolonisation s violence exist Decolonization and Conflict brings together expertise on a variety of different cases to offer new perspectives on the colonial conflicts that engulfed Europe s empires after 1945 The contributors analyse multiple forms of colonial counter insurgency from the military engagement of anti colonial movements to the forced removal of civilian populations and the application of new doctrines of psychological warfare Contributors to the collection also show how insurgencies their propaganda and methods of action were inherently transnational and inter connected The resulting study is a vital contribution to our understanding of contested decolonization It emphasises the global connections at work and reveals the contemporary resonances of both anti colonial insurgencies and the means devised to counter them It is essential reading for students and scholars of empire decolonization and asymmetric warfare     **The Central Asian Economies in**

**the Twenty-First Century** Richard Pomfret,2019-01-15 This book analyzes the Central Asian economies of Kazakhstan the Kyrgyz Republic Tajikistan Turkmenistan and Uzbekistan from their buffeting by the commodity boom of the early 2000s to its collapse in 2014 Richard Pomfret examines the countries relations with external powers and the possibilities for development offered by infrastructure projects as well as rail links between China and Europe The transition of these nations from centrally planned to market based economic systems was essentially complete by the early 2000s when the region experienced a massive increase in world prices for energy and mineral exports This raised incomes in the main oil and gas exporters Kazakhstan and Turkmenistan brought more benefits to the most populous country Uzbekistan and left the poorest countries the Kyrgyz Republic and Tajikistan dependent on remittances from migrant workers in oil rich Russia and Kazakhstan Pomfret considers the enhanced role of the Central Asian nations in the global economy and their varied ties to China the European Union Russia and the United States With improved infrastructure and connectivity between China and Europe reflected in regular rail freight services since 2011 and China s announcement of its Belt and Road Initiative in 2013 relaxation of United Nations sanctions against Iran in 2016 and the change in Uzbekistan s presidency in late 2016 a window

of opportunity appears to have opened for Central Asian countries to achieve more sustainable economic futures

**Bounded Rationality and Economic Diplomacy** Lauge N. Skovgaard Poulsen, 2015-08-21 This book examines how developing countries often sign up to highly potent rules underwriting economic globalisation without even realising it

*Healthy, Resilient, and Sustainable Communities After Disasters* Institute of Medicine, Board on Health Sciences Policy, Committee on Post-Disaster Recovery of a Community's Public Health, Medical, and Social Services, 2015-09-10 In the devastation that follows a major disaster there is a need for multiple sectors to unite and devote new resources to support the rebuilding of infrastructure the provision of health and social services the restoration of care delivery systems and other critical recovery needs In some cases billions of dollars from public private and charitable sources are invested to help communities recover National rhetoric often characterizes these efforts as a return to normal But for many American communities pre disaster conditions are far from optimal Large segments of the U S population suffer from preventable health problems experience inequitable access to services and rely on overburdened health systems A return to pre event conditions in such cases may be short sighted given the high costs both economic and social of poor health Instead it is important to understand that the disaster recovery process offers a series of unique and valuable opportunities to improve on the status quo Capitalizing on these opportunities can advance the long term health resilience and sustainability of communities thereby better preparing them for future challenges *Healthy Resilient and Sustainable Communities After Disasters* identifies and recommends recovery practices and novel programs most likely to impact overall community public health and contribute to resiliency for future incidents This book makes the case that disaster recovery should be guided by a healthy community vision where health considerations are integrated into all aspects of recovery planning before and after a disaster and funding streams are leveraged in a coordinated manner and applied to health improvement priorities in order to meet human recovery needs and create healthy built and natural environments The conceptual framework presented in *Healthy Resilient and Sustainable Communities After Disasters* lays the groundwork to achieve this goal and provides operational guidance for multiple sectors involved in community planning and disaster recovery *Healthy Resilient and Sustainable Communities After Disasters* calls for actions at multiple levels to facilitate recovery strategies that optimize community health With a shared healthy community vision strategic planning that prioritizes health and coordinated implementation disaster recovery can result in a communities that are healthier more livable places for current and future generations to grow and thrive communities that are better prepared for future adversities

**Automobility and the City in Twentieth-Century Britain and Japan** Simon Gunn, Susan C. Townsend, 2019-08-22 *Automobility and the City in Twentieth Century Britain and Japan* is the first book to consider how mass motorization reshaped cities in Japan and Britain during the 20th century Taking two leading motor cities Nagoya and Birmingham as their principal subjects Simon Gunn and Susan C Townsend show how cars changed the spatial form and individual experience of the modern city and reveal the

similarities and differences between Japan and Britain in adapting to the motor age The book has three main themes the place of automobility in post war urban reconstruction the emerging conflict between the promise of mobility and personal freedom offered by the car and its consequences for the urban environment the M E dilemma and the extent to which the Anglo Japanese comparison can throw light on fundamental differences in cultural understanding of the environment urbanism and the self The result is the first comparative history of mass automobility and its environmental consequences between East and West      **Unrecognized States and Secession in the 21st Century** Martin Riegl,Bohumil

Doboš,2017-05-27 This book presents novel theoretical and empirical findings on the issue of unrecognized states and secession The first part of the book conceptualizes unrecognized states as entities with a national identity and which have achieved political independence yet are not internationally recognized as independent states It also addresses topics such as the role of superpowers in secessionist conflicts ontological security in post Soviet states and factors influencing the legitimacy of secession referenda In turn the book s second part presents selected case studies on various secessionist regions and territories including Kurdistan the Caucasus Kosovo and Bougainville      **Dictators Without Borders**

Alexander A. Cooley,John Heathershaw,2017-02-07 A penetrating look into the unrecognized and unregulated links between autocratic regimes in Central Asia and centers of power and wealth throughout the West Weak corrupt and politically unstable the former Soviet republics of Kazakhstan Kyrgyzstan Tajikistan and Uzbekistan are dismissed as isolated and irrelevant to the outside world But are they This hard hitting book argues that Central Asia is in reality a globalization leader with extensive involvement in economics politics and security dynamics beyond its borders Yet Central Asia s international activities are mostly hidden from view with disturbing implications for world security Based on years of research and involvement in the region Alexander Cooley and John Heathershaw reveal how business networks elite bank accounts overseas courts third party brokers and Western lawyers connect Central Asia s supposedly isolated leaders with global power centers The authors also uncover widespread Western participation in money laundering bribery foreign lobbying by autocratic governments and the exploiting of legal loopholes within Central Asia Riveting and important this book exposes the global connections of a troubled region that must no longer be ignored      *Small, Gritty, and Green* Catherine

Tumber,2013-09-13 How small to midsize Rust Belt cities can play a crucial role in a low carbon sustainable and relocalized future America s once vibrant small to midsize cities Syracuse Worcester Akron Flint Rockford and others increasingly resemble urban wastelands Gutted by deindustrialization outsourcing and middle class flight disproportionately devastated by metro freeway systems that laid waste to the urban fabric and displaced the working poor small industrial cities seem to be part of America s past not its future And yet Catherine Tumber argues in this provocative book America s gritty Rust Belt cities could play a central role in a greener low carbon relocalized future As we wean ourselves from fossil fuels and realize the environmental costs of suburban sprawl we will see that small cities offer many assets for sustainable living not shared by

their big city or small town counterparts including population density and nearby fertile farmland available for new environmentally friendly uses Tumber traveled to twenty five cities in the Northeast and Midwest from Buffalo to Peoria to Detroit to Rochester interviewing planners city officials and activists and weaving their stories into this exploration of small scale urbanism Smaller cities can be a critical part of a sustainable future and a productive green economy Small Gritty and Green will help us develop the moral and political imagination we need to realize this

**From Head Shops to Whole Foods** Joshua C. Davis, 2017-08-08 In the 1960s and 70s a diverse range of storefronts including head shops African American bookstores feminist businesses and organic grocers brought the work of the New Left Black Power feminism environmentalism and other movements into the marketplace Through shared ownership limited growth and democratic workplaces these activist entrepreneurs offered alternatives to conventional profit driven corporate business models By the middle of the 1970s thousands of these enterprises operated across the United States but only a handful survive today Some such as Whole Foods Market have abandoned their quest for collective political change in favor of maximizing profits Vividly portraying the struggles successes and sacrifices of these unlikely entrepreneurs From Head Shops to Whole Foods writes a new history of social movements and capitalism by showing how activists embraced small businesses in a way few historians have considered The book challenges the widespread but mistaken idea that activism and political dissent are inherently antithetical to participation in the marketplace Joshua Clark Davis uncovers the historical roots of contemporary interest in ethical consumption social enterprise buying local and mission driven business while also showing how today's companies have adopted the language but not often the mission of liberation and social change
