The UK Regional-National Economic Problem Philip McCann, 2016-03-10 In recent years the United Kingdom has become a more and more divided society with inequality between the regions as marked as it has ever been In a landmark analysis of the current state of Britain's regional development Philip McCann utilises current statistics examines historical trends and makes pertinent international comparisons to assess the state of the nation The UK Regional National Economic Problem brings attention to the highly centralised top down governance structure that the UK deploys and demonstrates that it is less than ideally placed to rectify these inequalities The North South divide in the UK has never been greater and the rising inequalities are evident in almost all aspects of the economy including productivity incomes employment status and wealth Whilst the traditional economic dominance of London and its hinterland has continued along with relative resilience in the South West of England and Scotland in contrast the Midlands the North of England Northern Ireland and Wales lag behind by most measures of prosperity This inequality is greatly limiting national economic performance and the fact that Britain has a below average standard of living by European and OECD terms has been ignored The UK's economic and governance inequality is unlikely to be fundamentally rebalanced by the current governance and connectivity trends although this definitive study suggests that some areas of improvement are possible if they are well implemented This pivotal analysis is essential reading for postgraduate students in economics and urban studies as well as researchers and policy makers in local and central government

Geographical Data Science and Spatial Data Analysis Lex Comber, Chris Brunsdon, 2020-12-02 We are in an age of big data where all of our everyday interactions and transactions generate data Much of this data is spatial it is collected some where and identifying analytical insight from trends and patterns in these increasing rich digital footprints presents a number of challenges Whilst other books describe different flavours of Data Analytics in R and other programming languages there are none that consider Spatial Data i.e. the location attached to data or that consider issues of inference linking Big Data Geography GIS Mapping and Spatial Analytics This is a learning by doing textbook building on the previous book by the same authors An Introduction to R for Spatial Analysis and Mapping It details the theoretical issues in analyses of Big Spatial Data and developing practical skills in the reader for addressing these with confidence

Parker,Edmund C. Penning-Rowsell,2021-08-26 Building resilience to the world s increasingly damaging environmental hazards has become a priority This book considers the scientific advances which have been made around the world to enhance this resilience Although resilience is not new it is through the idea of resilience that governments organisations and communities around the world are now seeking to address the rapidly increasing losses that environmental hazards cause so that fewer lives are lost and damage is reduced Alternative ideas and approaches have been helpful in reducing loss but resilience offers a fresh

and potentially effective means of reducing it further Adopting a scientific approach and scientific evidence is important in applying the resilience idea in hazard mitigation However the science of resilience is at an immature stage of development with much discussion about the concept and how it should be understood and interpreted Building useful theories remains a challenge although some of the building blocks of theory have been developed More attention has been given to developing indicators and frameworks of resilience which are subsequently applied to measure resilience to hazards such as flooding earthquake and climate change Environmental Hazards and Resilience Theory and Evidence considers the scientific and theoretical challenges of making progress in applying resilience to environmental hazard mitigation and provides examples from around the world including the USA New Zealand China Bangladesh and elsewhere The chapters in this book were originally published in the Environmental Hazards

Governance, Conflict, and Natural Resources in Africa Hany Gamil Besada, 2021-04-22 A country's abundant natural resources may serve as a curse or a blessing with the outcome often dependent on prevailing governance structures and experience managing these assets Despite natural resource advantages many African countries have failed to transform their enormous economic potential and wealth into tangible benefits such as sustainable socio economic development human security or peace Governance Conflict and Natural Resources in Africa reevaluates the role that foreign state owned and private sector actors play in resource rich states whether stable post conflict or fragile in sub Saharan Africa Through research and an analysis of in depth interviews with local stakeholders in Ghana Sierra Leone and Ethiopia Hany Besada explains how foreign state owned and private sector corporations have contributed to economic growth at both the national and local levels in different resource rich countries This book reveals the unique challenges and opportunities created by these investors demonstrating that new policies in business practices and operations have the potential to generate sustainable development and positive economic transformation Governance Conflict and Natural Resources in Africa puts forward a novel framework for understanding the role of private economic actors in extractive industries in Africa and sheds new light on foreign private sector contributions to capacity building and economic development

The Green Belt, Housing Crises and Planning Systems Charles Edward Goode, 2025-03-31 This book evaluates the effectiveness of the Green Belt planning policy in England It is one of the most well known strategies internationally with similar growth restraint policies having been adopted in a diverse range of cities around the world such as Portland Medellin and Bangkok Despite this it is often argued that Green Belts contribute to wider inequitable outcomes in society Focusing on the Green Belt in England the book critically analyses the extent to which these policies and planning systems contribute to housing crises and examines how far they need to be reformed With the central role of community engagement in many of the debates about housing crises the book investigates the characteristics of popular and campaigner opposition to housebuilding alongside investigating the power relations and politics of planning systems This timely research taps into important current policy debates in the UK surrounding urban nature green infrastructure and building on the grey

belt The book is therefore of relevance and benefit to policymakers and politicians to academics and students internationally from a range of fields interested in housing community engagement green infrastructure strategic planning power and politics and conservation **Handbook of Research Methods in Migration** William L. [Pan-Nationalism as a Category in Theory and Practice](#) Alexander Maxwell, 2023-05-22 How is pan nationalism different from other forms of nationalism This book explores the diversity of pan nationalism in both theory and practice Drawing on Rogers Brubaker the book introduces pan nationalism as a category of practice It shows that pan nationalism implied

transcending political frontiers intermittently possessed a pejorative subtext and differed from unmodified nationalism partly due to a retroactively applied success failure criterion Pan nationalists always look across political frontiers but do not always want a single pan national state The book explores the diversity of pan nationalism through case studies and a selection of pan national movements such as Habsburg pan Slavism from both the Slavic and Hungarian perspective pan Saxonism in Europe and North America pan Ethiopianism and pan Somalism in the horn of Africa and pan Hinduism online The book will be of interest to students and researchers of politics including comparative politics various forms of nationalism and history The chapters in this book were originally published as a special issue of Nationalism and Ethnic Politics Publishers' Circular and Booksellers' Record of British and Foreign Literature ,1913 *The Publishers' Circular and Booksellers' Record* ,1913 *Yojana* ,2014 *University of California Union Catalog of Monographs Cataloged by the Nine Campuses from 1963 Through 1967: Authors & titles* University of California (System).
