

Note - Selecting a number of entities with the [Select Tool](#) and painting using the Ctrl modifier keys causes just the entities within the selection set to be painted.

Replace

Press and hold the Shift key prior to clicking on a face with the Paint Bucket Tool to apply a material to every face, with the same material in the current context, with the new material.

Note - Selecting a number of entities with the [Select Tool](#) and painting using the Shift modifier key causes just the entities within the selection set to be painted.

Adjacent Replace

Press and hold both the Shift and the Ctrl keys simultaneously while painting to only replace the material on the face within the confines of geometry that is physically connected to that face.

Note - Selecting a number of entities with the [Select Tool](#) and painting using the Ctrl modifier keys causes just the entities within the selection set to be painted.

Sampling a Material

Press and hold the Alt key to change from the Paint Bucket Tool to a Sample Tool for sampling materials within your model. The cursor will change to an eye dropper. Click on the face whose material you want to sample. Release the Alt key to return to the Paint Bucket Tool. Paint the sampled material on a face.
