Division of Training, 1982 **Counselor's Treatment Manual: Matrix Intensive Outpatient Treatment for People With Stimulant Use Disorders** U.S. Department of Health and Human Services, 2019-03-17 The Matrix IOP method was developed initially in the 1980s in response to the growing numbers of individuals entering the treatment system with cocaine or methamphetamine dependence as their primary substance use disorder. Many traditional treatment models then in use were developed primarily to treat alcohol dependence and were proving to be relatively ineffective in treating cocaine and other stimulant dependence. Obert et al 2000 To create effective treatment protocols for clients dependent on stimulant drugs, treatment professionals at the Matrix Institute drew from numerous treatment approaches incorporating into their model methods that were empirically tested and practical. Their treatment model incorporated elements of relapse prevention, cognitive behavioral psychoeducation, and family approaches as well as 12 Step program support. Obert et al 2000

**Substance Use Disorders** Antoine Douaihy, Dennis C. Daley, 2013-12 Written by experienced clinicians and researchers, this book provides a comprehensive overview of substance use disorders. It integrates evidenced-based practices with clinical wisdom of practitioners from several disciplines. Most importantly, this book provides practical strategies to help patients with substance use disorders in a range of treatment settings. *Drug Problems* Richard Isralowitz, Richard Rawson, Mohamed Afifi, 2002-01-30 Substance abuse and its social consequences are a major public concern for communities throughout the world. The motivations and consequences are deeply imbedded within the social and political structures of all countries, whether they be well-established democracies or developing nations. Every culture shapes the meaning of and responses to substances such as marijuana and heroin over time and across locations, but the broader drug issue has become universal. As the sphere of the problem expands, the experiences and solutions of each nation become more relevant to other countries. International concern over substance abuse has intensified as a result of the rise in production, use, and trafficking of illicit drugs all over the world. Therefore, the practical knowledge of policy development and abuse prevention and treatment strategies in the Middle East has increasing relevance for the rest of the world. *The Matrix Model for Teens and Young Adults: The Family Unit Manual*, 2007-10-30 The Matrix Model for Teens and Young Adults: The Family Unit Manual
