Mauritius Birding Trip Report:

Lost Land of the Dodo Anthony Cheke, Julian P. Hume, 2009-01-01 The Mascarene islands in the southern Indian Ocean Mauritius Reunion and Rodrigues were once home to an extraordinary range of birds and reptiles. Evolving on these isolated volcanic islands in the absence of mammalian predators or competitors the land was dominated by giant tortoises parrots skinks and geckos burrowing boas flightless rails the birds and tortoises were slaughtered indiscriminately while introduced rats cats pigs and monkeys destroyed their eggs the once extensive forests logged and invasive introduced plants from all over the tropics devastated the ecosystem. The now familiar icon of extinction the Dodo was gone from Mauritius within 50 years of human settlement and over the next 150 years many of the Mascarenes other native vertebrates followed suit. The product of over 30 years research by Anthony Cheke *Lost Land of the Dodo* provides a comprehensive yet hugely enjoyable account of the story of the islands changing ecology interspersed with human stories the islands biogeographical anomalies and much else. Many French publications old and new especially for Reunion are discussed and referenced in English for the first time. The book is richly illustrated with maps and contemporary illustrations of the animals and their environment many of which have rarely been reprinted before. Illustrated box texts look in detail at each extinct vertebrate species while Julian Hume's superb colour plates bring many of the extinct birds to life. *Lost Land of the Dodo* provides the definitive account of this tragic yet remarkable fauna and is a must read for anyone interested in islands their ecology and the history of our relationship with the world around us. *Mauritius* Alexandra Richards, 2012 Mauritius in particular has become a dream holiday destination especially popular with honeymooners and couples wishing to tie the knot on a classic white sand beach. It is easy to see why luxurious hotels a tropical climate a glorious coastline excellent diving and fascinating flora and fauna combine to make this island idyllic. The luxury hotels and spas of Mauritius the back to basics appeal of Rodrigues the rugged natural beauty of Reunion this new edition contains all the background and practical information you need to make the most of the Mascarenes. **Birding World** ,1993 *The Birds of Africa: Volume VIII* Roger Safford, Frank Hawkins, 2020-09-17 Universally recognised as by far the most authoritative work ever published on the subject *The Birds of Africa* is a superb multi contributor reference work with encyclopaedic species texts stunning paintings of all species and numerous subspecies informative line drawings detailed range maps and extensive bibliographies. Each volume contains an Introduction that brings the reader up to date with the latest developments in African ornithology including the evolution and biogeography of African birds. Diagnoses of the families and genera often with superspecies maps are followed by the comprehensive species accounts themselves. These include descriptions of range and status field characters voice general habits food and breeding habits. Full bibliographies acoustic references and indexes complete this scholarly work of reference. This eighth and final volume covers the Malagasy region which comprises Madagascar and the various islands and archipelagos of the Indian Ocean including the Seychelles the Comoros Mauritius and Reunion. Every resident and migrant species is covered in full.
