Over the years we have heard many complaints that there is no verysimple book on cardiac pacing for real beginners We have alsoheard that all the books on cardiac pacing are too complicated andimpossible to understand by beginners Many have voiced the hopethat one day someone would write a book in the same style asDubin s book on basic electrocardiography which is a hugebestseller with well over a million sold in many languages A Dummy book on cardiac pacing would appeal to nurses cardiology technicians medical students and pacemaker companiesfor training their staff We started with the assumption that the reader would know theprinciples of electrocardiography as in Dubin s book butnothing about cardiac pacing We carefully studied the Dubin bookand believe that we have improved his teaching method The bookconsists of

numbered illustrations each illustrating a concept in the form of a diagram drawn professionally We have been careful to make the artwork simple for easy comprehension Each illustration will occupy a page and have several lines of text below it We have already completed most of these It is essential that there are all in color this is a unique selling point The 3 authors have had vast experience in the field Dr Barold has published 10 books on cardiac pacing and wrote the section on cardiac pacing in the 4th and 5th Edition of Braunwald's book Heart Disease S Serge Barold Roland Stroobandt and Alfons Sinnaeve Content The plates depicting a concept with occupy 1 pages Each plate consists of a diagram and a short text All diagrams are in color In black and white they would lose their teaching value There will be approx 200 plates There will be approx 100 electrocardiograms There will be a glossary appendices and index *The Pacemaker and Valve Identification Guide* Dryden Phelps Morse, Robert M.
