Van der Spek, Jan Luiten van Zanden, Bas van Leeuwen, 2014-09-04 This exciting new volume examines the development of market performance from Antiquity until the dawn of the Industrial Revolution. Efficient market structures are agreed by most economists to serve as evidence of economic prosperity and to be prerequisites for further economic growth. The contributions focus on the market of staple crops as they were crucial goods in these societies. Over this entire period, all papers provide a similar conceptual and methodological framework resting on a common definition of market performance, combined with qualitative and quantitative analyses resting on new and improved
