DAVIDSON,2018-11-15 *Experience History* James West Davidson,Brian DeLay,Christine Leigh Heyrman,Mark H. Lytle,Michael B. Stoff,Becky Berry,Mark Klopfenstein,2019 **The Many Panics of 1837** Jessica M. Lepler,2013-09-16 In the spring of 1837 people panicked as financial and economic uncertainty spread within and between New York New Orleans and London Although the period of panic would dramatically influence political cultural and social history those who panicked sought to erase from history their experiences of one of America s worst early financial crises The Many Panics of 1837 reconstructs this period in order to make arguments about the national boundaries of history the role of information in the economy the personal and local nature of national and international events the origins and dissemination of economic ideas and most importantly what actually happened in 1837 This riveting transatlantic cultural history based on archival research on two continents reveals how people transformed their experiences of financial crisis into the Panic of 1837 a single event that would serve as a turning point in American history and an early inspiration for business cycle theory

Cross-Cultural Encounters in Modern World History Jon Thares Davidann,Marc Jason Gilbert,2016-09-16 Cross Cultural Encounters in Modern World History explores cultural contact as an agent of change It takes an encounters approach to world history since 1500 rather than a political one to reveal different perspectives and experiences as well as key patterns and transformations It studies the spaces between cultures historically to help us transcend human differences today in a rapidly globalizing world The text focuses on first encounters that suggest long term developments and particularly significant encounters that have changed the direction of world history Because of the complexities of these encounters the author takes a user friendly approach to keep the text accessible to students with varying backgrounds in history Cross-Cultural Encounters in Modern World History, 1453-Present Jon Davidann,Marc Jason Gilbert,2019-02-08 One of the hallmarks of world history is the ever increasing ability of humans to cross cultural boundaries Taking an encounters approach that opens up history to different perspectives and experiences Cross Cultural Encounters in Modern

World History examines cultural contact between people from across the globe between 1453 and the present. The book examines the historical record of these contacts, distilling from those processes patterns of interaction, different peoples' perspectives, and the ways these encounters tended to subvert the commonly accepted assumptions about differences between peoples in terms of race, ethnicity, nationhood, or empire. This new edition has been updated to employ current scholarship and address recent developments, as well as increasing the treatment of indigenous agency, including the major role played by Polynesians in the spread of Christianity in Oceania. The final chapter has been updated to reflect the refugee crisis and the evolving political situation in Europe concerning its immigrant population. Supported by engaging discussion questions and enlivened with the voices and views of those who were and remain directly engaged in the process of cross-cultural exchange, this highly accessible volume remains a valuable resource for all students of world history.

The All-Consuming Nation Mark H. Lytle, 2021-10-05 In his 1958 kitchen debate with Nikita Khrushchev, Richard Nixon argued that the freedom to consume defined the American way of life. High wages, full employment, new technologies, and a rapid growth in population, known as the Baby Boom, ushered in a golden age of economic growth. By the end of the twentieth century, consumerism triumphed over communism, socialism, and all other isms seeking to win hearts and minds around the world. Advertising, popular culture, and mass media persuaded Americans that shopping was both spiritually fulfilling and a patriotic virtue. Mark Lytle argues that Nixon's view of consumer democracy contained fatal flaws; if unregulated, it would wholly ignore the creative destruction that, in destroying jobs, erodes the capacity to consume. *The All-Consuming Nation* also examines how planners failed to take into account the environmental costs, as early warning signs, whether smog over Los Angeles, the overuse of toxic chemicals such as DDT, or the Cuyahoga River in flames, provided evidence that all was not well. Environmentalists from Aldo Leopold, Rachel Carson, and Paul Ehrlich to Ralph Nader and Al Gore cautioned that modern consumerism imposed unsustainable costs on the natural world. Not for lack of warning, climate change became the defining issue of the twenty-first century. *The All-Consuming Nation* investigates the environmental and sociocultural costs of the consumer capitalism framework set in place in the 20th century, shedding light on the consequences of a national identity forged through mass consumption.

Founding Myths Ray Raphael, 2014-07-04 The tenth anniversary edition of the book that showed why we must move past historical nonsense so that a truer, more democratic national record can emerge. *School Library Journal* Originally published to universal acclaim, award-winning historian Ray Raphael's *Founding Myths* has since established itself as a landmark of historical myth-busting. With Raphael's trademark wit and flair, *Founding Myths* exposed the errors and inventions in America's most cherished tales, from Paul Revere's famous ride to Patrick Henry's Liberty or Death speech. For the thousands who have been captivated by Raphael's eye-opening accounts, history has never been the same. In this revised tenth anniversary edition, Raphael revisits the original myths and further explores their evolution over time, uncovering new stories and peeling back new layers of misinformation. This new edition also examines the highly

politicized debates over America's past as well as how our approach to history in school reinforces rather than corrects historical mistakes. A book that explores the truth behind the stories of the making of our nation. National Public Radio this revised edition of *Founding Myths* will be a welcome resource for anyone seeking to separate historical fact from fiction.

Communities of Ludlow Fawn-Amber Montoya, Karin Larkin, 2022-07-15 For more than one hundred years people have come to the Ludlow Massacre Memorial site to remember the dead to place themselves within a larger narrative of labor history and to learn about what occurred there. *Communities of Ludlow* reveals the perseverance, memory, and work that has been done to enrich and share the narratives of the people of Ludlow and the experiences of those who commemorate it. The history of the Ludlow Massacre encompasses the stories of immigrant groups, women, the working class, and people of color as much as the story of that tragedy and the continued relevance of these issues creates a need for remembrance and discussion of how to make the events of the Ludlow Massacre available to contemporary society. The book outlines recent efforts to remember and commemorate this important historical event, documenting the unique collaborations in public scholarship and outreach among the diverse group of people involved in marking the 100-year anniversary of the Ludlow Massacre. The chapters relate the tales of the stewards of the Ludlow Massacre, the various communities that rallied together to keep this history alive, and show its relevance, including lineal descendants, members of the United Mine Workers of America, historians, archaeologists, scholars, artists, interpreters, authors, playwrights, and politicians. The book also offers tips, strategies, and cautionary tales for practicing engaged public scholarship. The history of the Ludlow Massacre has been told as a tragedy of striking miners in the West that occurred during a turbulent time in US labor relations, but it is so much more than that. *Communities of Ludlow* explores the intersections of public scholarship, advocacy, and personal experience, weaving these perspectives together with models for practicing public scholarship to illustrate the power of creating spaces for sharing ideas and information in an environment that encourages creativity, open dialogue, public outreach, political action, and alternative narratives. Contributors: Robert Butero, Robin Henry, Michael Jacobson, Elizabeth Jameson, Linda Linville, Matthew Maher, Yolanda Romero. *Why You Can't Teach United States History without American Indians* Susan Sleeper-Smith, Juliana Barr, Jean M. O'Brien, Nancy Shoemaker, Scott Manning Stevens, 2015-04-20 A resource for all who teach and study history, this book illuminates the unmistakable centrality of American Indian history to the full sweep of American history. The nineteen essays gathered in this collaboratively produced volume, written by leading scholars in the field of Native American history, reflect the newest directions of the field and are organized to follow the chronological arc of the standard American history survey. Contributors reassess major events, themes, groups of historical actors, and approaches, social, cultural, military, and political, consistently demonstrating how Native American people and questions of Native American sovereignty have animated all the ways we consider the nation's past. The uniqueness of Indigenous history as interwoven more fully in the American story will challenge students to think in new ways about larger themes in U.S. history.
