Kids, Music 'n' Autism Dorita S. Berger, 2016-11-21 Music is a great tool for brain sensory and skills development for children with autism but how can you best encourage them to take part in music based activities This practical guide tells you everything you need to know about helping children with autism to pursue their love of music from enjoying listening to concerts to performing in them

**Kids Talk** Susan M. Hoyle, Carolyn Temple Adger, 1998-09-10 Between early childhood and adulthood language acquisition is succeeded by a bloom of repertoire for managing interaction a growing sensitivity to the relation of language and society an expanding ability to wield power through the strategic use of language and an increasing sophistication in framing speech activities This book examines a wide range of language practices among school age children and teenagers using data from naturally occurring recorded talk and from careful observation of interaction in peer groups The contributors analyze talk at play at school and at work documenting the growing communicative skills of young people while always focusing on what young speakers themselves do with and through language Theoretical constructs to which the contributors appeal include Goffman's notion of footing and Hymes communicative competence as well as multiple characterizations of discourse structure The chapters show older children as strategic language users dynamic actors who are often concerned with defining themselves as a distinctive group different from adults yet who just as often display proficiency at sophisticated discourse activities that presage those of adulthood

Colormute Mica Pollock,2009-04-11 This book considers in unprecedented detail one of the most confounding questions in American racial practice when to speak about people in racial terms Viewing race talk through the lens of a California high school and district Colormute draws on three years of ethnographic research on everyday race labeling in education Based on the author s experiences as a teacher as well as an anthropologist it discusses the role race plays in everyday and policy talk about such familiar topics as discipline achievement curriculum reform and educational inequality Pollock illustrates the wide variations in the way speakers use race labels Sometimes people use them without thinking twice at other moments they avoid them at all costs or use them only in the description of particular situations While a major concern of everyday race talk in schools is that racial descriptions will be inaccurate or inappropriate Pollock demonstrates that anxiously suppressing race words being what she terms colormute can also cause educators to reproduce the very racial inequities they abhor The book assists readers in cultivating a greater understanding of the pitfalls and possibilities of everyday race talk and clarifies previously murky discussions of colorblindness By bridging the gap between theory and practice Colormute will be enormously helpful in fostering ongoing conversations about dismantling racial inequality in America

**The Horn Book Guide to Children's and Young Adult Books** ,2008 **Ambitious Like a Mother** Lara Bazelon,2022-04-19 In this captivating and radical look at work life

balance Lara Bazelon reframes our understanding of working women and shows how prioritizing your career benefits mothers kids and society at large In this singular cultural moment mothers have unparalleled opportunities to succeed at work while continuing to face the same societal impediments that held back our mothers and grandmothers We still encounter entrenched gender bias in the workplace and are expected to shoulder the lion s share of labor and burdens at home while being made to feel as if we re never doing enough All the while we re told that the perfect work life balance is possible if only we try hard enough to achieve it It s time to change the conversation about work life and balance Work and life are inextricably intimately intertwined We need to celebrate what we do give our children even and especially in moments of imbalance rather than apologizing for what we don t In this way we can model for our children how we use our talents to help others and raise awareness about the issues closest to our hearts We can embrace the personal fulfillment and financial independence that pursuing meaningful work can bring as a way of showing our children how to live happy purpose driven lives Bazelon argues not only that we can but that we should Being ambitious at work and being a good mother to our children are not at odds these qualities mutually reinforce each other Backed up by research and filled with personal stories from Bazelon s life as well as that of her mother and the many other women she interviewed across the cultural and financial spectrum *Ambitious Like a Mother* is an anthem a beacon for all to recognize and celebrate the pioneering women who reject the false idols of the Selfless Mother and Work Life Balance and a call to embrace your own ambitions and model your multiplicities for your children

learning became the primal policy taken by all institutions in the world to lower the risk of the virus spread. Despite the drawbacks of the online learning, teachers and students were accustomed with the distant learning through web meetings, Learning Management Systems (LMS) and other online learning platforms. In that time, topics under digital learning and education 5.0 were the main stakes in academic disseminations. This year, some institutions start to conduct their teaching and learning process classically as before the pandemic, others are still continuing online, and not few are in hybrid. This leaves a question: what learning reform should be made in post pandemic era? This conference invites researchers, experts, teachers, and students to discuss the coping solutions of the question. It is important for them to contribute to the understanding of re-imagining online education for better futures, innovative learning design, new skills for living and working in new times, global challenge of education, learning and teaching with blended learning, flipped learning, integrating life skills for students in the curriculum, developing educators for the future, distance learning, humanities learning in the digital era, assessment and measurement in education, challenges and transformations in education technology in teaching and learning, new learning and teaching models. Not limited to these, scholars may add another interesting topic related to learning reform in post pandemic era to present.
