

**Activity B:**  
**Name that phase!**

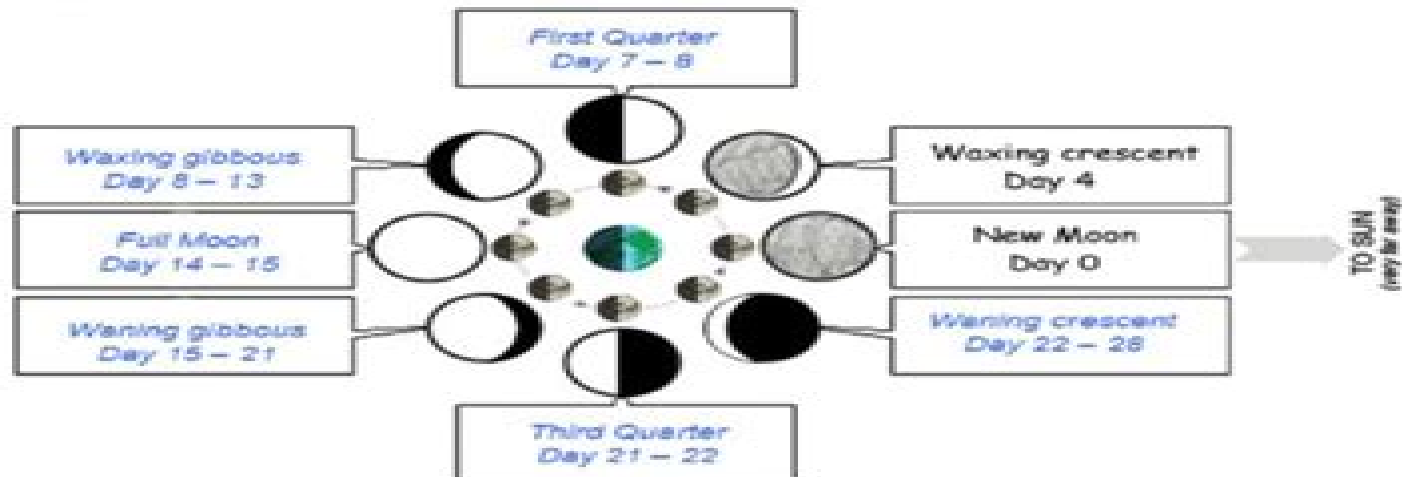

Get the Gizmo ready:

- Click **Reset**.

**Goals:** Learn the names of Moon phases and when they occur.

1. Run Gizmo: Click **Play**. When you are ready to fill in part of the diagram, click **Pause** (  ). Sketch what the Moon looks like and write the phase name and day next to your sketch. (The first two are done for you.) Click **Play** to continue.

2. Predict: Suppose you saw a waxing gibbous Moon. What phase would you expect one week later? *Predictions will vary. [Waning gibbous]* Test your prediction using the Gizmo.
3. Think and discuss: **Waxing** means "growing" and **waning** means "shrinking."
  - A. Seen from the North Pole, which side of a waxing Moon is illuminated? *The right side*
  - B. Which side is illuminated when the Moon is waning? *The left side*
  - C. Suppose you see a crescent Moon. How do you know if it is waxing or waning?

*If the right side is illuminated, it is waxing. If the left side is illuminated, it is waning.  
[As you move from the North Pole to the Equator, the Moon will appear to "tilt" more and more. From the Southern hemisphere the left-right directions are reversed.]*
