

MARK SCHEME for the October/November 2013 series

0460 GEOGRAPHY

0460/12

Paper 1, maximum raw mark 75

This mark scheme is published as an aid to teachers and candidates, to indicate the requirements of the examination. It shows the basis on which Examiners were instructed to award marks. It does not indicate the details of the discussions that took place at an Examiners' meeting before marking began, which would have considered the acceptability of alternative answers.

Mark schemes should be read in conjunction with the question paper and the Principal Examiner Report for Teachers.

Cambridge will not enter into discussions about these mark schemes.

Cambridge is publishing the mark schemes for the October/November 2013 series for most IGCSE, GCE Advanced Level and Advanced Subsidiary Level components and some Ordinary Level components.

Validating Technological Innovation David Coniam, Peter Falvey, 2016-04-02 This book discusses Hong Kong's use of onscreen marking OSM in public examinations Given that Hong Kong leads the way in OSM innovation this book has arisen from a recognised need to provide a comprehensive coherent account of the findings of various separate but linked validation studies of onscreen public examinations in Hong Kong The authors discuss their experience of the validation process demonstrating how high stakes innovation should be fully validated by a series of research studies in order to satisfy key stakeholders

House of Commons - Environmental Audit Committee: Green Finance - HC 191 Great Britain: Parliament: House of Commons: Environmental Audit Committee, Joan Walley, 2014-03-06 The Environmental Audit Committee points out that there is a large green finance gap Investments are currently running at less than half of the 200 billion needed in energy infrastructure alone by 2020 to deliver national and international emissions reduction targets And stock markets could be inflating a carbon bubble by over valuing companies with fossil fuel assets that will have to be left unburned in order to limit climate change The Bank of England's Financial Policy Committee should seek advice from the independent Committee on Climate Change to help it monitor the systemic risk to financial stability associated with a carbon bubble To address the green finance gap the Government must provide a joined up stable and certain policy framework that maintains investor confidence and helps markets price in the cost of carbon The Green Investment Bank has made a good start but does not currently have the power to borrow in order to leverage and enlarge its investments limiting its potential to fill the green finance gap Take up of the Green Deal has been poor and the Government must make it simpler and more attractive to households The European Commission's EC proposed new rules for State Aid in the energy sector could limit the finance available to support community owned energy schemes The Government must play a central role in agreeing ambitious and binding international commitments on climate change both in the EU and in the run up to the UN climate talks in Paris 2015

Geography, Institutions and Regional Economic Performance Riccardo Crescenzi, Marco Percoco, 2012-12-13 The book aims to present traditional features of regional science as geographical concepts and institutions as well as relatively new topics such as innovation and agglomeration economies In particular it demonstrates that contrary to what has been argued by recent economics literature both geography and institutions or culture are relevant for local development In fact these phenomena along with the movement of goods and workers are among the main reasons for persisting development differentials These intriguing relationships are at the heart of the analysis presented in this book

and form the conceptual basis for a promising institutional approach to economic geography
