

Class 10 Social Science Geography Chapter 7

Lifelines of National Economy

Notes

1. Movement of goods and services can be other three important domains of our earth-land, water and air. Based on these, transport is classified into land, water and air transports.

2. Today, the world has been converted into a large village with the help of efficient and fast-moving transport. A well-developed communication system has contributed a lot in this regard.

3. Railways, airways, waterways, newspapers, radio, television, cinema and interest, etc., have been contributing to India's socio-economic progress in many ways.

4. India has one of the largest road networks in the world, aggregating to about 2.3 million km at present. Roads in India are classified in the following classes according to their capacity-Golden Quadrilateral Super Highways, National Highways, State Highways, District Roads, Border Roads.

5. Roads can also be classified on the basis of the type of material used for their construction such as metalled and unmetalled roads. Metalled roads are all weathered roads whereas unmetalled roads get out of use in the rainy season.

6. Distribution of roads is not uniform in the country. Density of all roads varies from only 12.14 km in Jammu and Kashmir to 517.77 km in Kerala as on 31 March, 2011.
