Our strategy is analysis then construction: we analyze the mathematics topic into its initial blocks, small lessons, then we build every two blocks, then every three, and so on until the topic is finally built in a pyramid form from all its apparent aspects. 2 The mathematics grade series is built on using the colors well to help the reader to understand quickly every part. 3 In addition to the dictionary of new terms and words in the course, at the end of the book we did it in English Arabic. 4 In the end of the book, there are five self tests as a bank of problems to measure the abilities of self analysis and self assessment. 5 After self Test, there are ten Exam Style Papers to ensure the capabilities of using the different skills in the books. Mathematics Grade Primary Volume 1 has the topics: sets, the numbers from 0 to 10, comparison of numbers from 0 to 10, adding 1 digit numbers up to 10, families of 1 digit number up to 10, subtracting 1 digit numbers up to 10.
