**Feed Us with Trees** Elspeth Hay, 2025-07-15 A new and ancient story about perennial nut trees, our ecological role as humans, and the future of food. The day Elspeth Hay learned that we can eat acorns, stories she'd believed her whole life began to unravel. Until then, she'd always believed we must grow our staple foods in farmed fields, the same fields wreaking havoc on our land, air, and water. But all over the Northern Hemisphere, Hay learned humans once grew our staple foods in forest gardens centered on perennial nut trees: oaks, chestnuts, and hazelnuts. In *Feed Us with Trees*, Hay brings us along as she gets to know dozens of nut growers, scientists, Indigenous knowledge keepers, researchers, and food professionals and discovers that in tending these staple trees, we once played a vital environmental role as one of Earth's keystone species. *Feed Us with Trees* is Hay's hopeful manifesto about a brighter, more abundant world and a critical look at the long-held stories we'll need to rewrite to build it. It will appeal to environmentalists, regenerative farmers, permaculture enthusiasts, agroforesters, locavores, and anyone hungry for a more vibrant future.
