REACTION PAPER
in
Civic Welfare Training Program Service
(Northville 7 Guiguinto, Bulacan)

NSTP made its way from civic welfare training by engaging in some services. This activity purpose is to contribute our learnings to the general welfare and betterment of life for the members of the community or the enhancement of its facilities, especially those devoted to improving health, education, environment, entrepreneurship, safety, recreation and moral of the citizenry and other social welfare services to the chosen lower classes in different schools, and one of these schools is in the Northville 7, Bulacan. It is the place where we've made our training program.

I've already experienced an outreach program by feeding other people, teaching what's best for them but this activity is not like that. It's different from my past experiences. The difference of it is on our outreach program, I used to teach adults but here in our activity is 3-5 years old students. So there is really a lot of difference.

The class that we've handled is somewhat naughty but also very participative. Even though they are naughty, we really enjoyed teaching and guiding them. Most of the children on the first meeting are shy type but here, most of them are really comfortable with us. My student, namely Eunice, is just a little girl, naughty, and likes fun. Despite of their status in their life, she can smile all around and make friends with other people. She's contented with what she has in her life. Sometimes, I think why don't all of us be contented with what we have and live happy. Life is short. Don't make our life stressful but live happy.

I'm very proud that I'm one of the students who experienced it. It made me realize that I'm really blessed by the Lord our God. Some of the students that I talked to said that their family is broken and others said, one of their parents died. If you compare it to yourself, you will just say, "I'm really blessed by the Lord, I'm studying at Adamson University, both my parents are loving each other, I can eat thrice a day, etc." I've learned from them is to be contented with what you have.

In general, this major activity is successful. They learned a lot from us but also, we've learned from them too.

Integrating Community Service into Nursing Education Patricia A. Bailey, EdD, RN, CS, Dona Rinaldi Carpenter, EdD, RN, CS, Patricia A. Harrington, EdD, RN, CS, 2004-01-01 Service learning has many definitions based on how a service program is structured in a particular institution For this book it is defined as a structured learning experience that combines community service with student preparation and reflection a connecting link being established between academics and service The central focus of this textbook is the integration of service learning into the nursing curriculum The contributors address the components of service learning and its central relationship to education and curriculum and discuss issues related to service learning by incorporating narrative comments from some from some 300 students who have participated in various service learning programs *The Course Reflection Project* Nicole Schonemann, Emily Metzgar, Andrew Libby, 2015-05-01 Service learning is entering a post initiatory phase At tertiary institutions of all types and sizes service learning programs are common and service learning requirements for graduation are growing in popularity Taken together alongside continued faculty interest in effective teaching these factors have raised the visibility and popularity of service learning Now the greater need in service learning is not to prove the need for or efficacy of service learning but to turn the focus squarely back on practice Following established best practice is not enough instructors also need to reflect on how this fits within the specific context and application of each unique course and service learning partnership While there are many excellent resources that detail best practice and showcase exemplary service learning courses faculty reflection and course revision often goes unmentioned In response to the lack of attention on the role of reflection and course revision we convened groups of faculty from a variety of disciplines to reflect deeply on their courses paying specific attention to obstacles and challenges These conversations were converted to articles for this edited collection each chapter representing the process of reflection and revision and serving as a guide to develop effective practice in varied curricular contexts This text contributes to the body of literature on service learning in a unique and practical manner Faculty teaching or interested in teaching service learning classes would benefit from this text as well as university administrators and community service directors involved in service learning at a programmatic and institutional level This book should be marketed to faculty teaching disciplinary service learning classes and service learning pedagogy classes and administrative offices involved in service learning This could be a supplementary text for graduate level pedagogy courses Higher education institutional libraries would benefit from this text as well as the national and state campus compact offices **The Learning Portfolio** John Zubizarreta, 2009-03-16 The learning portfolio is a powerful complement to traditional measures of student achievement and a widely diverse method of recording intellectual growth This second edition of this important book offers new samples of print and electronic learning portfolios An academic understanding of and rationale for learning portfolios and practical information that can be customized Offers a review of the value of reflective practice in student learning and how learning

portfolios support assessment and collaboration Includes revised sample assignment sheets guidelines criteria evaluation rubrics and other material for developing print and electronic portfolios **Resources in Education** ,2000 **The Hidden Curriculum - Faculty Made Tests in Science** Sheila Tobias,1997 **Interdisciplinary Instruction** Karlyn E. Wood,2015-03-23 The fifth edition of this practical guide to interdisciplinary instruction focuses on the thinking and reasoning skills mandated by the Common Core State Standards and the content learning standards required by an increasing number of states The author provides an easy to follow step by step guide to designing creating and implementing unit and lesson plans for all learners Both pre service and in service elementary and middle school teachers will find Wood s approach to be comprehensive with a strong theoretical foundation Using Wiggins and McTighe s backward design process Wood offers specific protocols for creating unit and lesson plans at the elementary and middle school levels By emphasizing differential instruction constructivist educational philosophy application of skills in meaningful context and the art of engaging student interest he demonstrates how diverse student populations can benefit from the interdisciplinary approach Prospective teachers will learn to create interdisciplinary and multidisciplinary plans that promote problem solving creativity and social interaction Examples abound with an appendix of sample unit plan designs filled with ideas for lessons and activities **Older Americans Community Service Program** United States.
