more than five decades of racing The Automotive Industry and European Integration A. J. Jacobs, 2019-08-07 This book chronicles the divergent growth trends in car production in Belgium and Spain It delves into how European integration high wages and the demise of GM and Ford led to plant closings in Belgium Next it investigates how lower wages and the expansion strategies of Western European automakers stimulated expansion in the Spanish auto industry Finally it offers three alternate scenarios regarding how further EU expansion and Brexit may potentially reshape the geographic footprint of European car production over the next ten years In sum this book utilizes history to help expand the knowledge of scholars and policymakers regarding how European integration and Brexit may impact future auto industry investment for all EU nations **Globalization or Regionalization of the American and Asian Car Industry?** M. Freyssenet, K. Shimizu, G. Volpato, 2003-04-15 The automobile sector is one of the most archetypal global industries and is seen by many as one of the main drivers behind the homogenisation of world markets due to firms internationalization strategies and the social practices that firms impose This book argues that this is not entirely the case due to the heterogeneity of firms and the diversity of strategies pursued It highlights the diversity and forms of internationalization and the preference for regionalization rather than globalization that has occurred over the past decade This book looks specifically at the American and Asian car industry
