

Which service technique is best?

Ford recognizes that individual drivers do varied kinds of things and therefore the idea of parking that you require depends upon your situation. For example, if you tend to travel long distances and have a lot of errands to run, you may want to park at a shopping center or a place where there are many services nearby. If you're going to work, you might prefer to park near a business district. And if you're going to school, you might want to park near a campus.

Ford's new service techniques are designed to help you find the right type of parking space for your needs. They're also designed to help you find the right type of parking space for your vehicle.
