reforming the public school system from 1983 to the present The Laughing Librarian Jeanette C. Smith,2014-01-10 Despite the stodgy stereotypes libraries and librarians themselves can be quite funny The spectrum of library humor from sources inside and outside the profession ranges from the subtle wit of the New Yorker to the satire of Mad This examination of American library humor over the past 200 years covers a wide range of topics and spans the continuum between light and dark from parodies to portrayals of libraries and their staffs as objects of fear It illuminates different types of librarians the collector the organization person the keeper the change agent and explores stereotypes like the shushing little old lady with a bun the male scholar librarian the library superhero and the anti stereotype of the sexy librarian Profiles of the most prominent library humorists round out this lively study Hindu Nationalism, History and Identity in India Lars Tore Flåtén,2016-10-04 When the Hindu nationalist Bharatiya Janata Party BJP assumed power in India in 1998 as the largest party of the National Democratic Alliance it soon became evident that it prioritized educational reforms Under BJP rule a reorganization of the National Council of Educational Research and Training occurred and in 2002 four new history textbooks were published This book examines the new textbooks which were introduced considering them to be integral to the BJP s political agenda It analyses the ways in which their narrative and explanatory frameworks defined and invoked Hindu identity Employing the concept of decontextualization the author argues that notions of Hindu cultural similarity were conveyed particularly as the textbooks paid scarce attention to social geographical and temporal contexts in their approaches to Indian history The book shows that intrinsic to the textbooks emphasis on similarity is a systematic backgrounding of any references to internal lines of division within the Hindu community Through a comparison with earlier textbooks it sheds light on the contested nature of history writing in India especially in terms of nation building and identity construction This issue is also highly relevant in India today due to the electoral success of the BJP in 2014 and the efforts of the Hindu nationalist organization Vishwa Hindu Parishad to construct a coherent Hinduism Arguing that the textbooks operate according to the BJP s ideology of Hindu cultural nationalism this book will be of interest to academics in the field of South Asian studies contemporary history the uses of history identity politics and Hindu nationalism *The Best Books: F, History and historical biography.* G, Archaeology and historical collaterals William Swan Sonnenschein,1923 **Contested**
