The causes of misconduct are manifold whether it is the need to advance in a chosen discipline or to compete successfully for  
and obtain research funding Disappointingly individuals who are oriented to any form of dishonesty are individuals who had  
previously displayed little or no consideration for the feelings of others and are therefore more interested in themselves at  
the expense of the students and others recognizing them by any means necessary This ground breaking and honest  
examination of ethics in the university setting is unabashed in its descriptions of misconduct in the academic world The text  
is well furbished with numerous citations that point to academic misconduct and the final chapter deals with the means by  
which misconduct can be mitigated a strong reminder to everyone in the academic community that above board conduct
